

PRESS-RELEASE:**SOS DATA ON RAPID RISE OF MCS ILLNESS DEMAND TO PREVENT PANDEMIC**

Share #❤️👂🚫⚠️👊 **MCS** to save millions of lives & help rescue teacher-whistleblower!

SOS Urgent video address with health and safety alert to parents was recently released by Rozalina Gutman, **calling for TOP PRIORITY ATTENTION to the alarming DATA**, evident of high risk for children from painful, highly limiting and incurable **environmental illness MULTIPLE CHEMICAL SENSITIVITY/MCS**, caused by **loss of tolerance to normalized toxicants**, that had been allowed to become the fabric of our life. This sobering DATA helps to break long time **MCS denial by corrupt establishment**. And it points to the **tangible threat of pandemic**, with very narrow, **fast closing window of opportunity for urgent prevention strategies**:

⚠️ **Statistics Canada demonstrated, that the number of half a million MCS victims DOUBLED to over a million from 2000 to 2016, during only 16 years.** (Watch her video address + see infographic, a must-know, but left undisclosed health and safety facts, prevention tips etc: www.environmentalSanityNow.org But paradoxically, Americans had been kept in the dark on this DATA from the Canadian Community Health Survey that makes evident **the rapid RATE of rising number of victims of environmental illness of MCS/MULTIPLE CHEMICAL SENSITIVITY**.

The DATA is self explanatory about the fact: Unless urgent, profound changes are in place, just in a few decades - **when children/grandchildren of today's adults grow up**, this incurable health calamity is to reach the widespread of pandemic, leading to the vast numbers of MCS victims, devastated by agony of painful affliction, **leaving fewer healthy enough people to take care of the sick**. And since such demographic change will collapse society, there is no time to waste: What seems difficult to change **NOW**, will soon become **IMPOSSIBLE**. Thus, the **LAST chance to shift from self demise NOW may not be missed**.

Ms. Gutman was propelled by her distinguished teacher's duty to act as **advocacy voice for voiceless children unable to walk away from toxic environment**, by sharing rarely available compelling facts about her personal suffering of MCS victim and related human rights violations. This illustration with life-facts of the statistical evidence is critical for raising awareness and resonance to the urgent need to prevent this rising threat to millions, due to **the evident rapidly growing RATE of increased MCS victims' numbers that is to manifest into tsunami-like spread in just a few decades(!) - just when children will grow up**. Ms. Rozqlina Gutman is Internationally recognised master Music instructor, concert pianist, multidisciplinary brain/music scholar, organizer of local/global events and author of the ebook on brain optimization beyond the self-defeat paradoxes of the human mind, that she had to write is despite unspeakable hardships, caused by surrounding MCS crisis, forcing her to sound urgent **SOS** call for personal rescue(!) and assistance with her global causes. (www.CHARISMAfoundation.org) Ms. Gutman firmly believes, that parents

deserve to know about **the lack of expected hospital system for MCS CARE and NO SPECIALIZED MCS HOUSING for lifesaving isolation from toxic exposure**, that force many MCS victims into **SUICIDE(!)**, while the public had been kept in the dark about mere existence of this illness. along with lack of any training on the subject for the medical schools students.

SOS These Ms. Gutman's insights through the glance of the victim-whistleblower are a must-know and most invaluable information for understanding how **the 1st global chemical experiment on population with no consent of its subjects had been subtly impacting both physical health and psyche**, since never in the past mothers and fathers had experiential knowledge on how to survive societal collapse from agony, caused by normalized toxicants...

That is why, the recently released urgent warning for parents by Rozalina Gutman also calls upon all progressive forces for help with the spotlight for a must-know fact's about **painful illness MCS, relieved (only to a degree) only by isolation from exposure to normalized toxicants**, that had become hard to identify and escape in the toxic soup of unsafe consumer products. And cumulative effect of such lurking with offgassing toxicants is **impossible to replicate accurately** in labs, making them impermissible for human consumption. Urgent shift in prioritizing for EFFECTIVE protection of children from toxic exposures is **the key to reducing the risk from epigenetic triggers of genetic mutations from hormone disruptors, that had already predisposed majority of kids for being the high risk of MCS.**

• That is why, forming community MCS TASK FORCES for independent oversight of this issue, based on the guidance of current carriers of MCS gift on detecting illegally legalized and normalized toxicants in many consumer products is the logical way of learning painful lessons to avoid and reduce similar suffering by the next generations.

The insider's grasp of the problem allows to amend the above findings: The actual VAST amount of undiagnosed by hospitals MCS cases is likely **far larger, than the listed numbers**, since most medics are yet to get training on MCS diagnosis, based on the **vows of HHS Secretary RFK JR in December 2025** to start the process, by funding research on this chronic immunocompromised illness (triggered by Lyme, mold etc.) - earlier denied by corrupt & cruel authorities. However, **the rapid rate of MCS growth from the monitored cases** is the invaluable marker that the public deserves to know, in order to take urgent (for ALL!) measures to reduce 1)personal risk of MCS & prevention of 2)community threat, & 3)global MCS pandemic spiralling out of control, collapsing society-wide workforce.

Above sobering DATA WARNS about the need to face the bitter truth: Even IF the long overdue national and global agreements on curbing toxic Anthropocene were reached today, the process of phasing out toxic products **won't be instant**. **MCS-triggers will continue impacting a rising number of its victims with agony of painful symptoms, since genetic mutations had already been seeded by hormone disruptors, resulting from widespread toxic conveniences.** Thus, creation of the system for care and specialized housing for MCS victims is the urgent task that may not wait even for a day, in order to stop current human rights violations and to prevent subjecting millions of the future ones to the same unprecedented cruelty. And likeminded parents may have better success by building camaraderie with committed to chemical safety folks for forming community MCS TASK FORCES to stop systemic malice against MCS victims.

MALADAPTIVE HABITUATION TO TOXICANTS DOES NOT CANCEL THEIR CUMULATIVE EFFECT: Ms. Gutman points, that this DATA breaks dangerous **illusion about "infinite" tolerance** of toxicants by human body. No, it is NOT infinite(!). Her ebook provides music-embodied evidence for **depth-understanding of inner mechanisms of SELF DEFEATING Blindspots.** And, maladaptive conformity

to toxic environment of DEACTIVATED PAIN ALARMS TO TOXICITY is the example for it: Since a child can't run away from toxicants, her "social brain" habituates to toxic normality, resulting in Blindspot for toxic **cumulative effect & warped(!) prioritizing - the root psychological drivers** of the maladaptive sacrifice of loving care for child's chemical safety to legalized toxic conveniences! That is why, in the face of caused by hormone disruptors compassion deficits, Ms. Rozalina Gutman urges parents to take to HEART💛 & help share these stats and their meaning, while including in social media reposts the hashtag #💛🧠🚫⚠️👊MCS, along with HEART-centered music-based practice

And at [Int'l Seminar of ISME RESEARCH COMMISSION 2022](https://youtu.be/cxJTlaJSs2Q), <https://youtu.be/cxJTlaJSs2Q> she appealed for support of her colleagues to assist with integration into school curricula of rediscovered by her **Bach's effective tool for brain optimization through resolution of retaliatory cognitive dissonance**, calling upon ALL progressive forces to shift to **NO BUSINESS AS USUAL in multidisciplinary collaborations**, since **"Superman's not coming"** - as the book title by environmental justice advocate Erin Brokovich reminds...

Above MCS-DATA had been featured earlier in the video *"WHAT IS MULTIPLE CHEMICAL SENSITIVITY/ MCS"*, which *also provides a legal guide for guarding MCS victims from dire cruelty of HUMAN RIGHTS ABUSES(!) of ridiculing(!) & dismissing their painful symptoms, normalized into the policy* <https://youtu.be/ZZ4D0sgHJdQ>. (Similar USA Law - ADA addresses issues of MCS accessibility). And Ms. Gutman's upcoming *Volumes of Biographicals* are to expose evidence for the bitter truth, that is stranger than fiction, revealing how this author of ebook on self-defeat paradoxes of human mind had to write it, despite decades of hardships, in order to advocate for [still innovative teaching method of brain optimization of Prisoner of Conscience J.S.Bach](#), providing evidence for stupefying, injurious emotional repression - pedagogical relic from monarchy regime, still being imposed upon students of his scores, and being entrained throughout lifetime starting from young age - **unlawfully(!)** and despite common sense & contrary to voluminous data on such psychological hazard, linked to serious illnesses. (See details in her [ebook "Paradox of invisible dissonance in Fugue-Parody by J.S.Bach"](#) on paradoxes of the human mind, reflected by Bach's music)

Among multitude of hate crimes, insightful multi-disciplinary brain/music scholar was forced into living in old collapsing car, while her functional car was impounded & sold from auction(!) - all as the result of so called "helpful" public servants and their affiliates-cronies. Thugs with "helpful" appearance refused to help in relevant(!) for her disability ways, while making contrary appearances. Such a must-know lessons for parents are to feature many evident videos/images, to help forensic psychologists track excusiology of staff of various **crisis solution agencies, government institutions and medical industry, that had been conspiring together, as the criminal ring operation** in repeated and malicious attempts to devastate health & life of the woman of many virtues, disabled & thus, needing RELEVANT and urgent help. For example, on 07/07/25 city employees decided to "help" her, based on public servants' duties - by creating **hostage situation to terrorize her with illegal threats of car impound, and to coerce her into signing fraudulent documents**. Their blunt refusal (since 2022!) to obtain real MCS diagnosis from expert MD was consistent with cruel, life-threatening FRAUDULENT DIAGNOSIS they concocted, to direct its readers into harmful actions against her vulnerable and weakened MCS health - with notorious, unapologetic cruelty.

However, Ms. Gutman was proud to catch the Blindspot of criminal scheme by cronies from several agencies: Their premeditated malice was easily revealed by **the time stamps of fraudulent entry, committed two hours prior(!) to nurse's arrival to the 1st appointment with patient**. (See details in additional display.) And since this hideous pattern of gaslighting MCS victims is common, media exposure of its inner mechanism is to help break otherwise smooth operation of torturous pipeline, powered by unsuspecting **taxpayers' donations**. Seemingly "decent" individuals with the minds of thugs engaged, as well as condoned unprecedented **Death Row machine** for victims of MCS crisis,

shamelessly insisting on calling it “helpful services”. And how did city council respond to reported by her crimes? Urgent investigation will be the only logical response. But... NO, instead, more of life-threatening(!) hostility followed shortly in the form of grotesque acts of cruel liars and shameless evil doers... More recently, Ms. Gutman attempted to address the issues at the City Council, but bias-based lack of interest to the subject was expressed with no extension of minimal time of 3 minute. However, the unsolved problems for her MCS suffering won't discriminate against their OWN offsprings, as the result of the dangerous collective Blindspot. She hoped her earlier question to council Conrad would be finally heard and answered by city council, now led by environmental lawyer Silverstein in Mayor's chair, who is proud of being a loving father: **On what side of the Battle of Mindsets are you, when it comes to MCS risk for OWN offsprings & for the entire community?..** Even *crucifixion between two thieves* (!) with the purpose of incitement of cruel bias and hatred by brutal liars & cruel power abusers against disabled teacher, concert pianist, scholar & author of the book on textbook-changing discoveries Rozalina Gutman would not cancel the universal significance & urgency of her message, based on the MCS-stats. Evil doers will have to learn through pain about agony of MCS, **indiscriminate of fame, wealth, social status, career/educational success, religious beliefs, as well as of impunity for crimes**, political influence for abuse of public court system to hold closed-door trials - cancelled, due to laughable charges against teacher-whistleblower.

- But instead, the logic calls for asking her & other MCS-gift carrier **to share guidance, based on painful MCS GIFT to detect toxicants NO amount of money can buy.** And, the above DATA made ever more urgent the use of *invaluable painful MCS GIFT for making healthier the lives of individuals and communities.*

RFK JR vocally denounced such cruel gaslighting and psychologizing of the painful chronic illness of MCS in Lyme patients, mold refugees, etc. And yet, State/local public health and crisis solution agencies failed(!) to launch TASK FORCES for environmental illness, thus SABOTAGING his HHS reforms for restoring forsaken SANCTITY OF HUMAN HEALTH AND LIFE IN THE MEDICAL FIELD: Lack of MANDATES to provide MCS-specialized housing for lifesaving avoidance of toxic exposure from INDOORS/outdoors pollution is the root cause for LIFE-threatening crisis for Ms. Gutman, along with NO(!) law for banning 6 classes of toxicants in consumer products. Thus, Ms. Gutman calls upon parents to **form community MCS TASK FORCES for independent oversight, in order to prevent burials of their offsprings, due to SUICIDE, that is shockingly common today among MCS victims, due to the above abhorrent human rights violations, turned into foundation of unjustifiable systemic tyranny.**

SOS Her calls for rescue and support from all progressive forces is joined by the supporters of initiated by her Int'l Campaign LIBERATE BACH! for reawakening from stupefying emotional detachment, issuing urgent WARNING:

HANDS OFF! STOP LIFE-THREATENING HATE CRIMES AND GASLIGHTING! IN RETALIATION TO DUTIES FOR RELEVANT HELP FOR ROZALINA GUTMAN - THE WOMAN OF MANY VIRTUES, WHO BECAME THE VICTIM OF SEVERE MCS.

▲ *In the face of the tradition of persecuting musicians by poverty, Bach's fans & devotees, inspired by genius' example of fighting for musician's rights and supporters of the Int'l Campaign LIBERATE BACH!, call upon ALL progressive forces for helping with her urgent rescue! We're ALL together in this challenge:* 🙏 Please, **'SHARE health saving info with hashtag #💛🧠🚫💪MCS !** Help to urge US public health agencies to launch MCS advocacy campaign & the system for the relevant for MCS care - without deadlly oversimplification. Please, [Join MCS 🌹 ambassadors](#) NOW! + [Click for press/media inquiries](#) + Learn more about [AUTHOR Ms. Gutman](#) & her ebook [“Paradox of invisible dissonance in Fugue-Parody by J.S.Bach”](#)
