BAKUP-USA

Installation Guide

BMW R1200GS PASSENGER BACKREST

- **Place four spacers provided above the four holes on the luggage rack.**

- **Set your backrest on top of the spacers so that the four holes align.**

- **Install four bolt, washers, and nuts provided so that the washers are on the bottom side with the nut.**
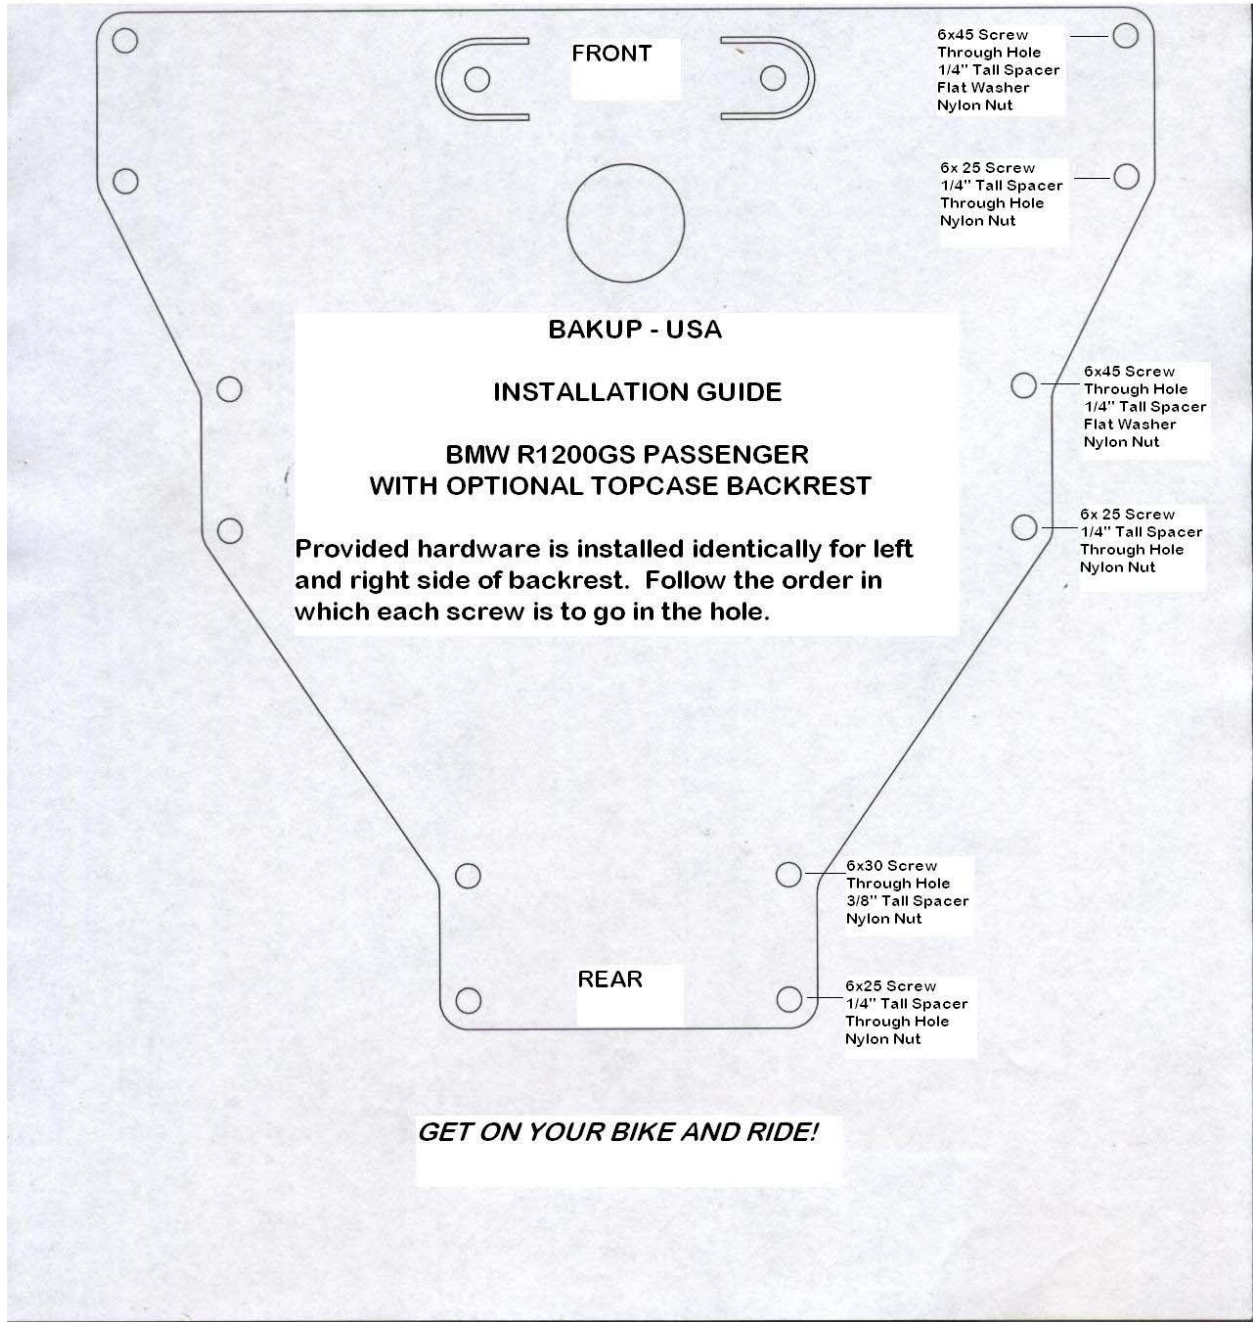

- **Adjust to your liking.**

Installation Guide

BMW PASSENGER R1200GS
WITH OPTIONAL TOP CASE BACKREST

- Remove the top case and the bracket for the top case.
- Using Pack #1 place the four-1/4" long spacers over the holes in the luggage rack and two-3/8" long spacers over the 2 holes in the rear support for the top case bracket.
- Place your backrest on top of the spacers starting with the holes to the front of the backrest.
- Using Pack #2 install screws through the backrest and luggage rack. Be sure that the washers are on the bottom of the luggage rack.
- Using Pack #3 install the screws in the holes for the rear top case support. Be sure that you have the factory nuts in place.
- Using Pack #4 place the six spacers on the top of the remaining six holes on the backrest bracket. Place the bracket for the top case on top of the spacers.
- Install the screws and nuts from Pack #4.
- Install the top case.
- See attached Diagram for installation guidance.
- Adjust to your liking.
