Installation Guide

KAWASAKI CONCOURS 14 DRIVER

1. Place your bike in a safe place on center stand.
2. Remove the seat and place it upside down on a table and remove the two (2) nuts holding the center hold down lugs, remove the lugs.
3. Install the reinforcement plate (part 1) over the screws with the three tabs to the rear down in the three cavities as shown in picture.
4. Install the left (part 2) and right (part 3) brackets over the studs with the threaded inserts pointing towards the front of the seat and along the side.
5. Install the two (2) 6mm locking nuts provided.
6. Reinstall the seat on the bike.
7. Install part 4 of the backrest over the seat so that the holes align with the threaded inserts of parts 2 and 3. Install the six (6) screws provided and tighten.
8. Tuck and fold the vinyl over the ends of the bracket. Adjust to your liking.

Note
It is preferred to install all three screws on one side first.
