

IT IS HVAC TIME! Our contractors will be here soon to tear out and replace the library's air conditioning and heating systems!

PHASE ONE: The Children's Library and the YA Teen Room will be **CLOSED** beginning Sept. 15th through the rest of September, as this is where the work will begin. For safety, kids 12 and under can only be in the Library with their parents or guardians beginning Sept 15th. There will be kid's books & movies available to check out in the east side of the Library.

We will try to keep the east side or “adult” side of the library open as much as possible for Phase One of this project.

LOUD NOISES will be a part of our library setting for weeks.

Thank you for your support and flexibility.
