Satin stainless steel

About d line

d line is a heritage brand with over 50 years of design tradition, originating in 1971 with Knud Holscher's coordinated line of architectural hardware. Today, we provide a cohesive solution within architectural hardware and washroom products – designed to create a unified expression within any space.

Our collection of stainless steel taps and showers are meticulously crafted with an emphasis on longevity and the use of high-quality, recyclable materials. The collection supports our ability to offer a cohesive solution and blends perfectly with the rest of our products with their minimalist aesthetic, seamless installation and function.

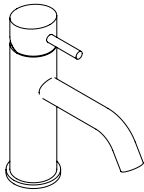

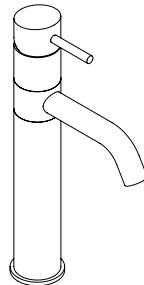

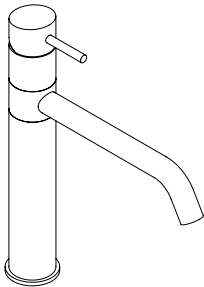

The products are made from non-corrosive stainless steel - inside and out. We have chosen to use stainless steel due to its health and hygiene properties, recyclability and durability. The products are extremely resistant to aggressive environments and have an extraordinary long lifespan. All taps and showers come with a 20-year product guarantee.

Designed to never become waste

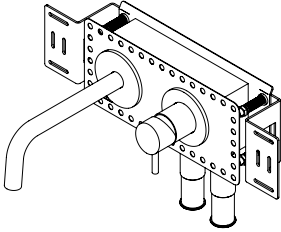

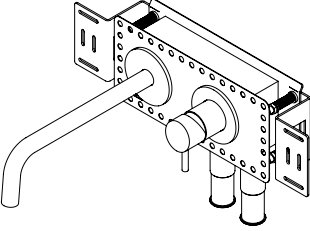

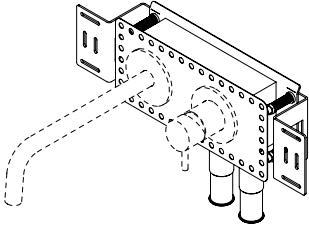

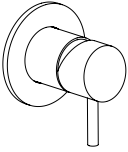

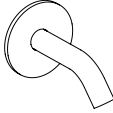

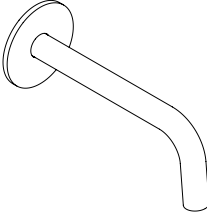

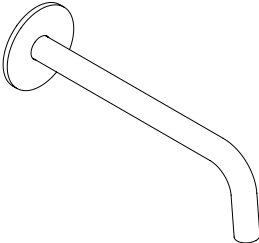

Satin PVD black

Maintenance guide

d line products are produced in the highest quality stainless steel. To sustain the unique d line finish please follow the below instructions:

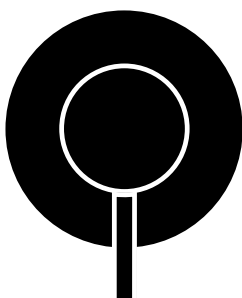

- Products should always be cleaned along the structure (grinding/polishing direction), not across.
- A clean dust and grit-free cloth should be used to avoid scratching.
- Fingerprints, residue and other marks may be cleaned with soapy water or special mild detergent with a soft cloth or piece of suede.
- Always rinse off thoroughly with clean water.
- To complete the cleaning procedure dry/polish the surface with a soft dry cloth.

Do not use:

- Do not use scouring powder, because it may scratch the surface.
- Do not use cleaners containing chlorides (especially hydrochloric acid) or other aggressive cleaning products to clean stainless steel surfaces. If such products are accidentally used, wash the surface with fresh water and clean with special cleaners removing oxides and other compounds.
- Do not use cleaning agents used for cleaning silver.
- Do not use rough and abrasive materials like steel wool.

PVD coated stainless steel

- PVD coatings may fingerprint, this can be removed by cleaning the surface with soap and water and dry.
- Coarse abrasives, files, or other hard objects must not be used against PVD coated stainless steel surfaces – the soft stainless steel may deform.
- If a softer metal, such as a ring or key marks the surface, it is most likely the soft metal residue that has been left on the coated surface. Clean off with soapy water or special mild detergent.

Warranty

Warranty period

In addition to any statutory warranty rights a customer may have, d line offers an extended warranty period on the d line branded goods.

The length of the extended warranty depends on the product. The periods listed below includes any statutory warranty period and will apply from the time of purchase:

- 20 year warranty on stainless steel products.
- 5 year warranty on coated products (PVD coating).

The extended warranty periods does not cover electric parts, interchangeable parts, such as screws and snaplocks, or other wearing parts.

The warranty covers

The extended warranty is void, if there is damage to or failure of any product/ component, if the product:

- Has been altered except as authorized by d line.
- Has not been installed, operated, repaired, or maintained in accordance with the installation, handling, maintenance, or operating instructions.

Warranty claims process

In case of a warranty claim, we need to be able to document the claim both to better the process for the future as well as having documentation on any defects.

Therefore, we need the following:

- Images and a short description of the claim.
- Copy of the purchase invoice.
- Customer's full name and address.

Please send the above documentation to service@dline.com or contact Customer Support at +45 72 17 01 38.
