ILBAGNOALESSI One

## SENTEC BATHTUBS

The force of nature is unexpectedly conjured up in a solid surface bathtub. With the high proportion of mineral particles, the surface feels as smooth as stone which has been rounded and polished over time by gently flowing water.

The pleasant, warm touch of the surface conveys a feeling of health and cleanliness - providing pure relaxation.

## MARBOND BATHTUBS

Marbond is a robust composite material from LAUFEN, made of two layers with a high-strength bond between them. It is based on a high quality solid surface material with a robust gel coat finish.

## Bathtub materials

When choosing the bathtub or shower tray, material choice depends on individual preference and intended use. In order to be able to provide the right solution for all situations, LAUFEN provides four different materials:

### Sentec

Bathing in a bathtub made of solid surface material Sentec feels like being in a natural basin. Due to a high percentage of mineral particles, the surface feels smooth. The innovative material also allows an incredible freedom of design: almost every shape is feasible – from very organic to very straight and architectural. Furthermore the non-porous surface of the material is hygienic, durable, UV-resistant, highly resistant to scratches and can be effortlessly cleaned.

### Marbond

Marbond is a composite material made of two layers which are extremely well connected with each other: The basis is formed by a high-quality mineral casting material, the surface is coated with a two millimetre thick acrylic layer. Marbond is hygienic, easy to clean, temperature resistant according to EN 263 and anti-slip (class C).

**IAPMO UNIFORM PLUMBING CODE** All of LAUFEN's ceramic products (unless noted otherwise in the price list) meet the design requirements and laboratory testing demands of the Uniform Plumbing Code (cUPC) and American Society of Mechanical Engineers (ASME). Organisations that provide this testing routine include the International Association of Plumbing and Mechanical Officials (IAPMO Group), that have issued several of LAUFEN's certifications.
