COLLABORATION

Klodea partnered with the Milan based designer duo Bernhard & Vella to create a line full of elegance. A meticulous research for design combined with high quality materials and high-end production processes, resulted in two new collections: Paris and London.

Paris collection is a cabinet handle line with an exquisite elegant simplicity.

London is a cabinet knob line with a romantic touch.

DESIGN

London Collection is the definition of elegance and modernism.

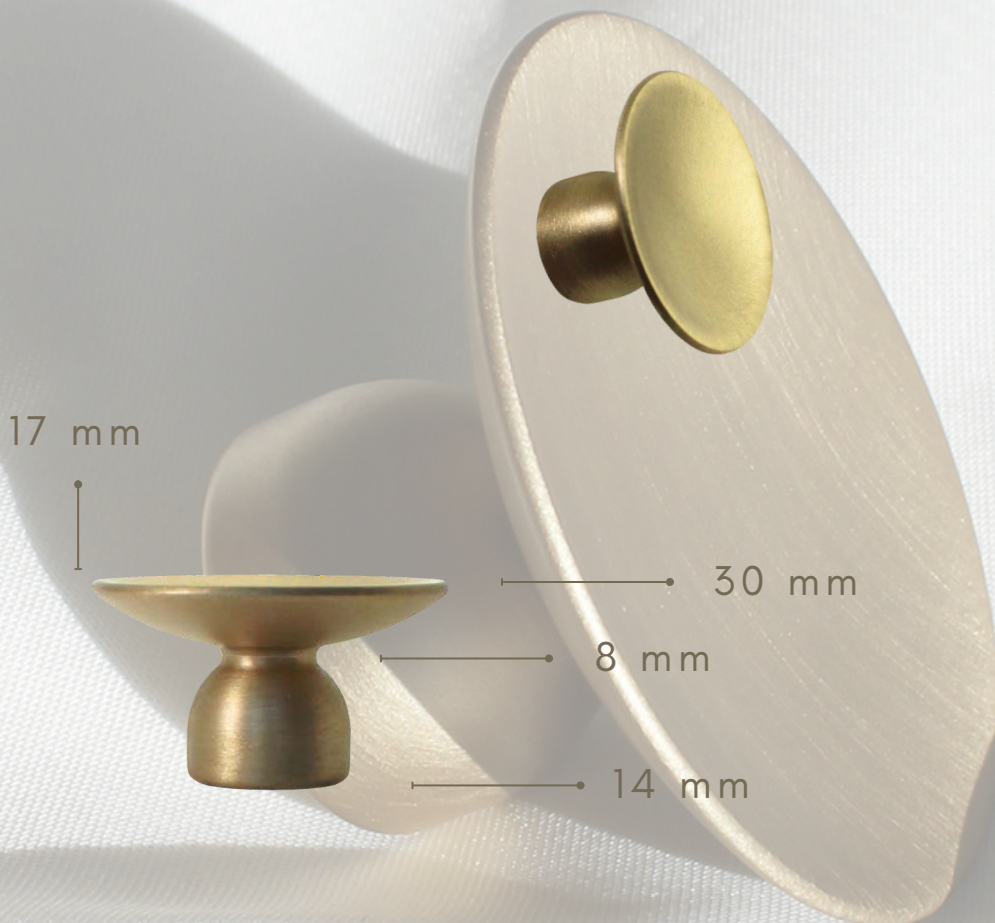

A round shape, clean and simple, combined with soft curves, defines the simplicity of the design, through three unique sizes that perfectly match every piece of furniture.
