UNIQUE SOUL

The design

Designing a new door pull handle that embodies luxury and elegance is a task that requires attention to detail and a careful selection of materials.

Imagine a pull handle 800 mm long, crafted from the best quality of aluminium to ensure durability and longevity.

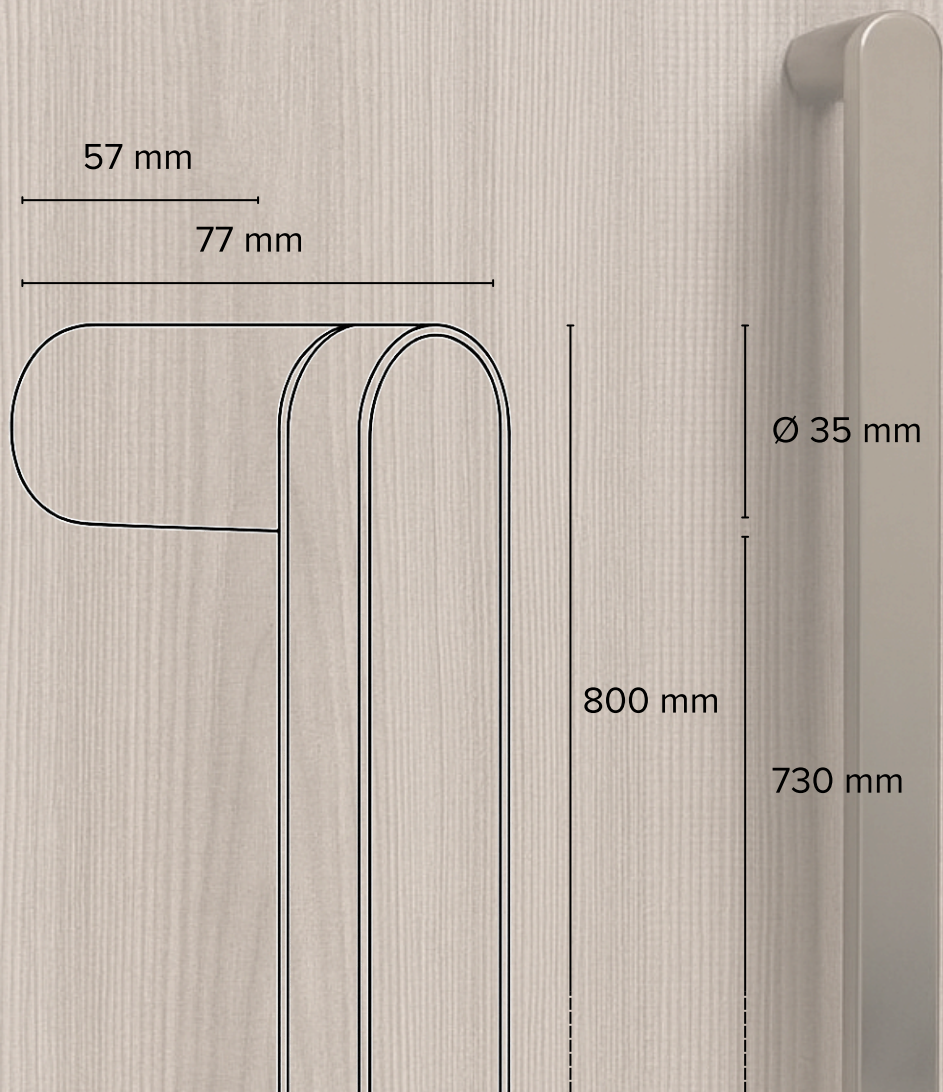

The finish is well selected, providing a sophisticated and modern appearance.

The lines should be clean and fluid, with delicate details that enhance the aesthetics without compromising practicality. An ergonomic design ensures an excellent grip, while attention to artisanal details makes each piece unique.

This pull handle is not just a functional element but a true architectural jewel, perfect for spaces that demand the utmost in luxury and quality.

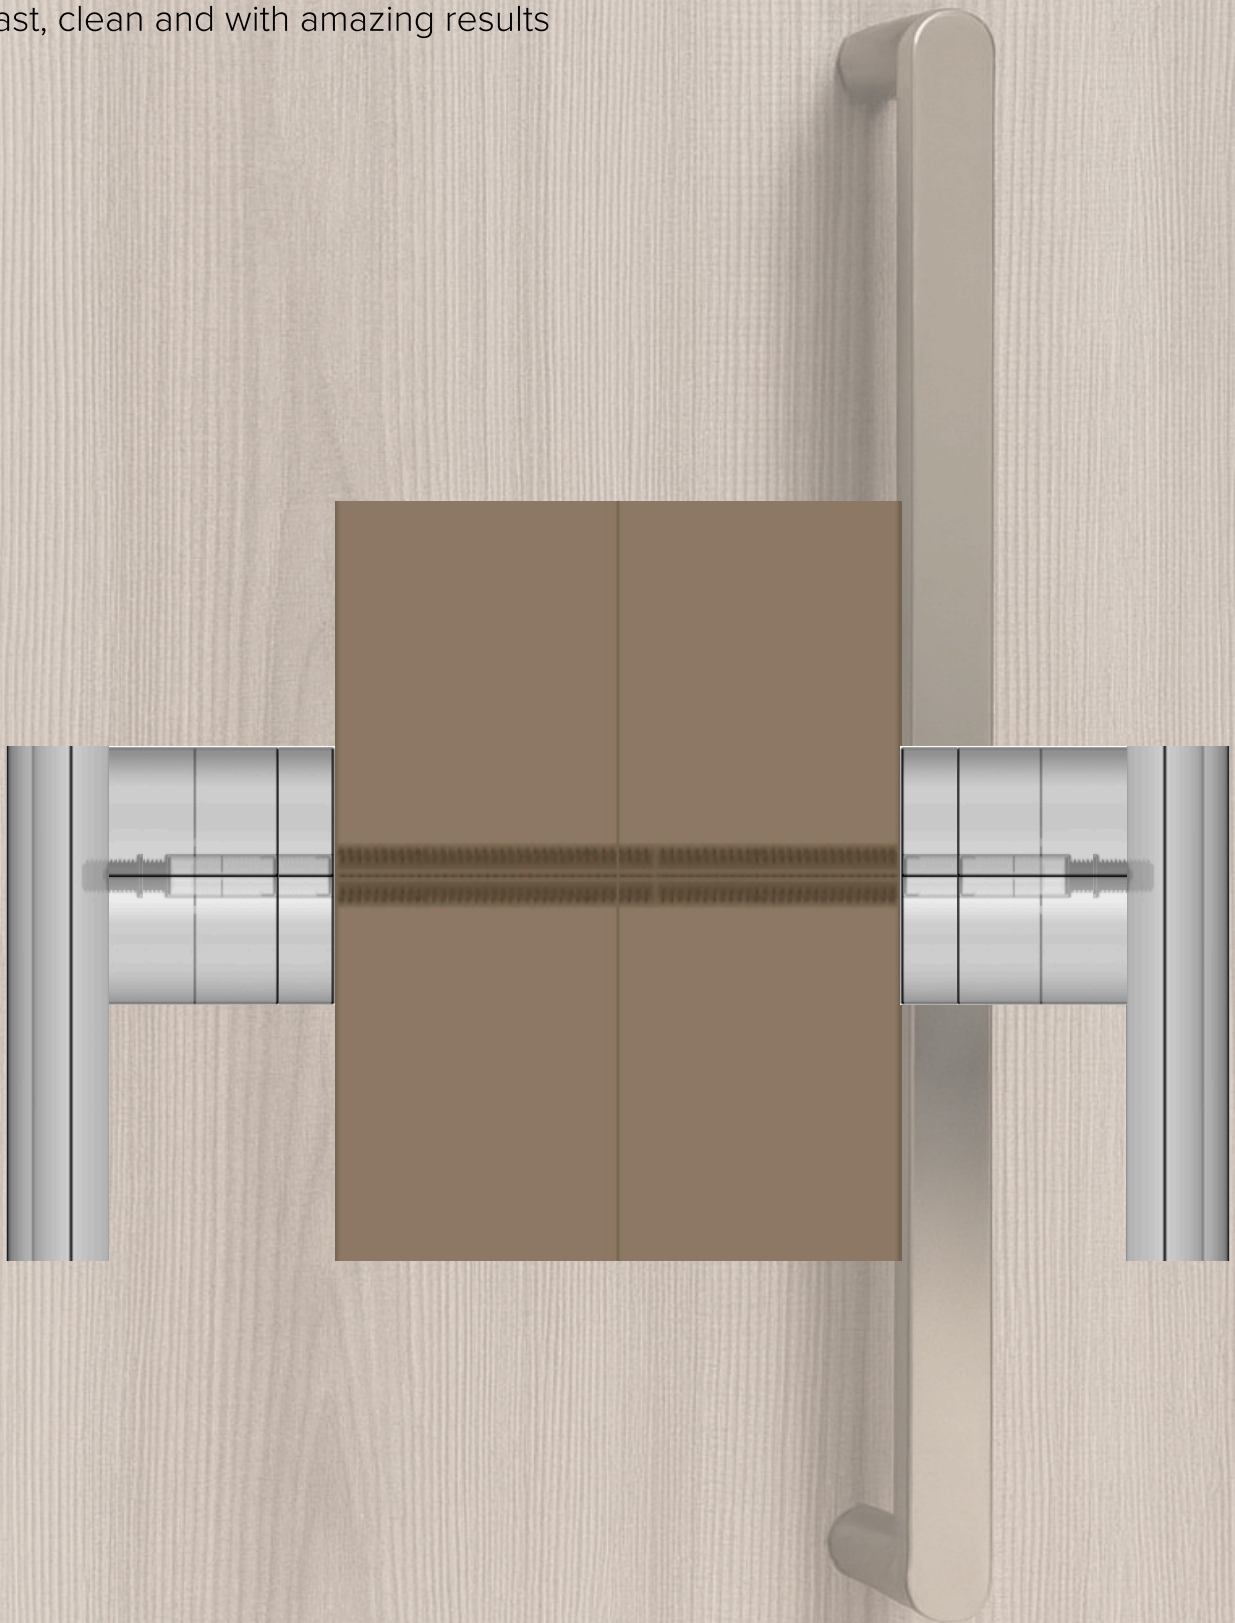

Technical sheet
item 2500

Material: Aluminium
Lenght 800 mm
Diameter: Ø 35 mm
Hole Distance: 765 mm

Double Fixing Version

The innovative installation, easy,
fast, clean and with amazing results
