

## **Fractions: Tips**

- **ALWAYS MAKE SURE YOUR FRACTIONS ARE SIMPLIFIED WHEN FINDING THE LCD**
  - Many people forget and then the whole problem is wrong
  - If you make is mistake in a standardized test then you will not get partial credit
- Answers **do not** have to be in a proper fraction format
  - They can be improper and mixed numbers as well
  - Follow the directions when you solve these problems
- **Never** forget to switch the 2nd numerator and denominator when dividing fractions!
  - If you don't switch them, then you will just by multiplying and will get the question wrong
- **CHECK YOUR WORK!!**
  - It is very important to check your work especially because it is easy to make silly mistakes
