

Types of Sentences: Tips

- All types of sentences are **EQUALLY** important.
- Make sure to always use **correct punctuation** with each type of sentence.
- **Don't** start a sentence with a conjunction.
 - If you write a sentence starting with a conjunction, your teacher will count it wrong!
- Always start your sentence with a **capital** letter.
 - **NEVER FORGET THAT!!**
- Make sure your sentence is **not just a phrase**
 - Make sure it has a subject and predicate
 - For example: If you had the 2 sentences "I." and "Go!"
 - "Go!" would be a sentence because the subject is you. Even though it is not in the sentence, it is understood.
 - "I." is just a phrase with no predicate.
