

## Making a way, out of no way

- Therefore, we have from our last proof of **The Promises of God Are Yes & Amen** we have these particular and very inherent understandings;

Therefore, we have it that we will consider ordinary differential equations such that like Jesus, we prove them wrong and move on.

*That is,*

$$S_1 = \frac{2e^{\pi\theta}}{(s-a)^2}$$

↓

*or else,*

$$S_2 = \frac{2e^{\pi\theta}}{\csc^2\theta - 1}$$

↓

*Otherwise,*

$$S_3 = \frac{2e^{\pi\theta}}{\cot^2\theta}$$

*Signed*

$\langle M^2 \rangle$

Very Simple Pythagorean Identities:

$$1 + \cot^2\theta = \csc^2\theta$$

Therefore,

$$\cot^2\theta = \csc^2\theta - 1$$

Nevertheless, we can separate our denominator, decompose our values and get an infinite expression of solutions. Remember,

$$-\infty < \cot\theta < \infty \text{ (Ranging)}$$

$$\text{And } \cot\theta * \cot\theta = \cot^2\theta$$

Regardless of all of this we wait on the Lord. Again, I say, wait on the Lord.  
<Psalms 27: 12-14.

It should be understood he is the God that makes a way out of no way; Given that we have the function of;

$$s = \frac{2e^{\pi\theta}}{e - \frac{1}{\ln(x)}} \text{ or } s = -\frac{2e^{\pi\theta}}{e - \frac{1}{\ln(x)}}$$

Meaning outside interference does not even matter at this point, if the Lord has a particular blessing for a person, surely it will come to pass.

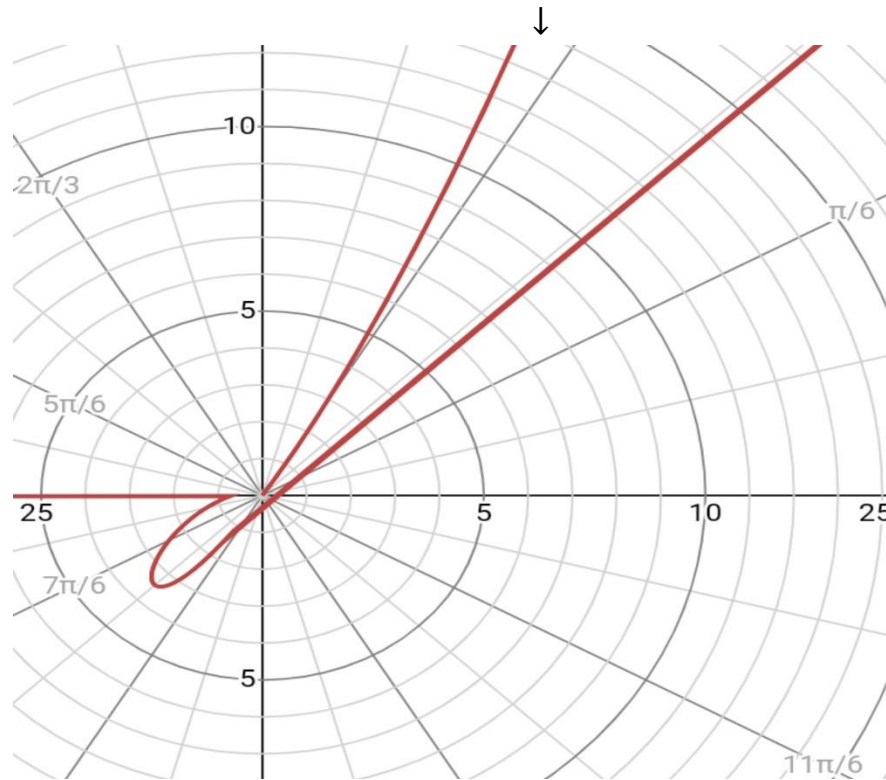

Hit the negative sign once and we see the Gradient Vector in Polar Coordinates

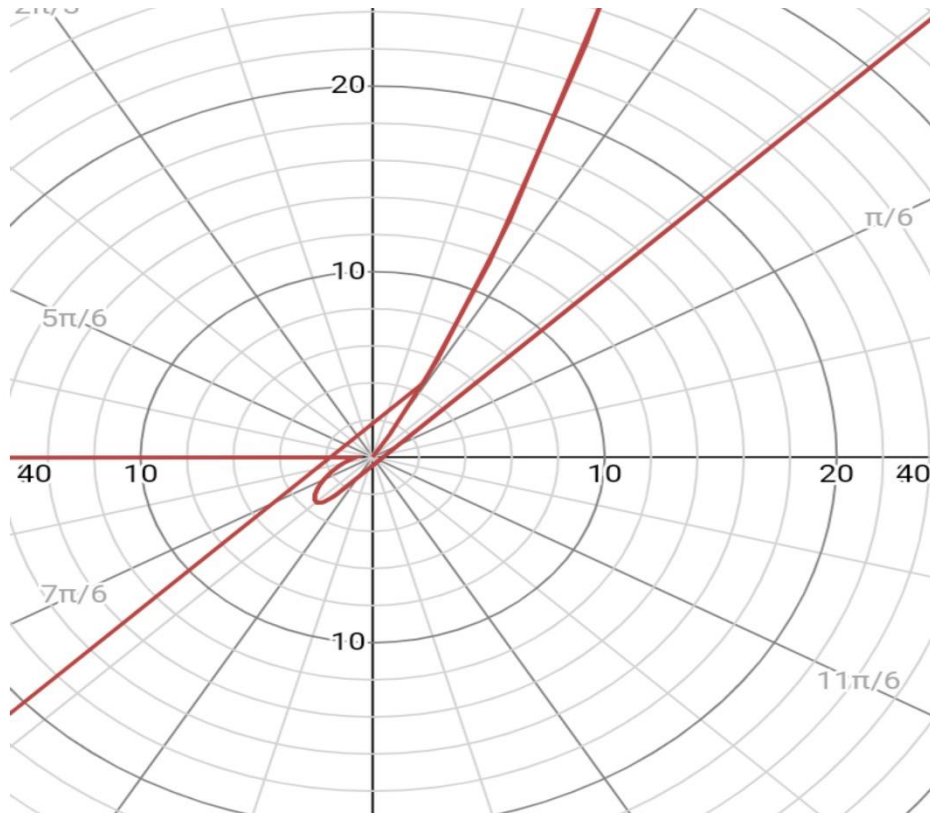

- On the flip side of that for;

$$\text{or } s = -\frac{2e^{\pi\theta}}{e^{-\frac{1}{\ln(x)}}} \text{ which gives,}$$

- This statement is stated from a negative perspective, the function was negative, but God turned it around for good! Although the problem looked negative to the human eye, when mapping it out, there it turned out for good. When God gives a blessing, he truly adds no sorrow. Here we see a negative input, turn out for good. Therefore, we have Romans 8:28—NKJV And we know that all things work together for good to those who love God, to those who are the called according to *His* purpose.
- If you look even closer to the graph, while it appears to happen in order, the gradient vector appears in-between. Considering facts in the next handle we will scroll out -1 and observe the graph.

- Here from a negative perspective, if we scroll out one, we see a negative line functioning (gradient), but it is only for a time at a time. Surely in an instance the Lord turns it around for good (double positive gradient Vectors on upward trajectory). Verifying Genesis 50:20 –NKJV-- But as for you, you meant evil against me; *but* God meant it for good, in order to bring it about as *it is* this day, to save many people alive. Aside from Joseph, we have many occurrences in the bible of God turning a bad situation around for his good, to save many lives.
- Therefore, we have it that, if the hand of the Lord is on someone or something and it is the Devine order or purpose of the Lord to get a particular task done, or carry out a particular mission, it does not matter about outside interference. There is nothing or nobody on the earth, above the earth, or under earth, that can interfere with the plans of the One True & Living God. I assure you, inside of time, when God is ready to do a thing, he is sure to do a thing. (Miraculous Manifestation of God) #GodBless (M<sup>2</sup>)
