

DANCE STUDIO 22 EMERGENCY & FIRE PROCEDURES AT PERRY BEECHES CHURCH

- Dance Studio 22 will be adopting the same procedures as the church.
- If any alarm should sound, the Dance teacher will immediately investigate by leaning out of the studio door and calling to for help. (Never leaving the children unattended).
- The teacher will then usher the children into getting their shoes on as quickly as possible to prepare to vacate the building.
- Best exit route will be via the front doors, out through the gates onto Beeches Road, turning left up the hill until reaching the first house past the church grounds. If this route is blocked or unsafe then the Studio has a fire exit, which will be used as back up, which takes the children through the carpark, out onto (Sandy Lane), where they can wait safely.
- The Teacher will ensure that a Register is kept of attendees at the start of every lesson and it is this Register that will be taken again once everyone is out of the building and standing outside of the church grounds safely.
- If anyone is missing, the appointed person/ member of staff or Fire Brigade should be made aware.
