Scoring: 10-7 scoring system. Each round will be worth 1 point and 1 point for total points; ties are worth ½ point, for a total of 5 round points. Play scratch on the first night. Handicaps will be fractioned so round up or down. Up to a .49 is rounded down and .50 and up is rounded up

Example: 6.00 to a 6.49 is a 6 and 6.50 to a 6.99 is a 7. Lowest average a player can be is a 5.

Whichever team has the lowest team total average gets the handicap points.

Does NOT matter the team standings.

Definition of a push shot: a billiards shot in which the cue remains in contact with the cue ball until the cue ball has touched the object ball or one in which the cue strikes the cue ball twice

Rack and break your own rack

Ball in hand rules – play scratch the 1st night – NO COACHING

Will not use the patch – make sure and call your pocket

If a player scratches on the break the next shooter shoots out of the kitchen and if that player scratches it is ball in hand any where on the table

Slow Play: if a player is playing slow, taking longer then 1 minute to shoot, the 1st time the opposing player calls you on it, will be a warning first time, and 2nd time it will be a foul
