

DURA-EDGE

CALCINED CLAY  
**TOPDRESSING**  
FOR INFIELDS

# Give your particle size a **PREMIUM EDGE.**

**PlayBall Topdressing is engineered to stay in place** and provide less particle breakdown. It is designed for superior durability which results in less contamination, meaning it stays on the surface longer.

PlayBall is more attainable for end users at all levels who want to implement a professional grade calcined clay material.

- 100% natural earth product
- A more professional-like grade at an economic price
- Baked over 1300°F for industry-leading particle durability
- Manages surface moisture and improves durability
- Lasts longer on the field so you use less throughout the season

#### INFIELD SKIN APPLICATIONS

- Infield skin topdressing
- Infield skin drying agent

#### TURFGRASS APPLICATIONS

- Till into native soil rootzones to relieve compaction
- Topdress & drag into sand rootzone after aeration
- Topdress & drag into turf after aeration to improve nutrient and water holding capacity
- Can be used in Drill & Fill and DryJect machines

The difference is in the dirt. .... DuraEdge.com
