

Optimized Solutions, Quality Engineering

Technology for all

Rendering Engineered Solutions

- With more than 30 years of experience in engineering industry, Rotech offers end-to-end engineering design services, customized IT solutions and Enterprise Resource Systems to cater to the client needs and simplifying the business
- Business grows and so do your goals. Rotech believes that our clients should focus on their business expansion while using the advantage of technology in every step of their business.

About Us

Rotech Engineering Enterprises, has been incepted with the objective of providing engineered solutions to the process industry.

Engineering

End-to-end design solutions and engineering consultancy

Our Offerings

Engineering Solution for Fluid Sealing Systems

- With the extensive experience in the field of fluid sealing, Rotech offers end-to-end consultation **from concept design to its implementation** and various other related technical aspects

Product Design, Selection And Application Engineering

- For
- **Mechanical seals** for rotary equipment.
 - **Bearing protection** devices and methodologies
 - Ancillary **support systems**
 - Equipment **reliability**

Technical Presentations And User Training

- Importance of fluid sealing in the rotary equipment
- Mechanical seal - **Failure analysis, Energy conservation, MTBM enhancement**
- Quality management system

IT Solutions

'Technology Advantage for all' is our driving force.

Our Offerings

Smart ERP System

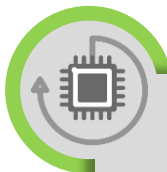

- Rotech is authorized channel partner of EPPS-ERP for sales and implementation. With a strong domain knowledge of engineering industry and complex processes involved in manufacturing, Rotech provides end-to-end ERP solution.

IoT and BI System

Internet of Things is the next step towards more smart way to optimize your business. Rotech with LIVEN to develop customized IoT products -

- Production Data Analysis
- Business Intelligence and Data Analysis
- Component Traceability Solutions

Customized Software Solutions

Technology for all is our motive and with this Rotech provides following customized solutions -

- Content Management Systems
- Customer Portals
- CRM Solutions
- ERP add-on products such as inventory optimization, production planning, forecasting & scheduling using advanced management science techniques, along with SOLVOP -Pune.

A row of incandescent light bulbs is shown against a dark background. The bulb in the foreground is turned on, emitting a bright yellow light that illuminates the surface it sits on. The other bulbs in the row are unlit and recede into the background, creating a sense of depth.

Career Mentoring

Right opportunity with right guidance

Our Offerings

Right opportunity with right guidance is what everybody needs at different stages of the life. Rotech provides a scientifically proven career development facilitation along with Dheya. We simplify the career decisions by connecting your natural strengths to exciting futuristic opportunities.

WHY

- Select work destinations and not the educational streams
- Connect work life beyond education
- Plan your path

HOW

- Building self awareness by using scientifically proven methodologies
- Connect your strengths with future opportunities with our highly researched database
- Mentoring by senior and certified professionals from industries

Thank You
