THE JOURNEY IS THE REWARD

## ABOUT

As a young girl I was told that my passions and dreams for life were nice but not achievable from where I was from.

I was that "lives in a fantasy world starry eyed girl".

But I never held on to that negativity from anyone.

I used it to overcome, influence and drive myself and others. What I clung on to more was my genuine passion for experiencing life authentically and how I wanted to live it and I knew that when I decided to take action nothing would ever hold me back!

Now let's be REAL! I will always be a girl from the hood (South Auckland New Zealand) but this mentality I took with me. I took risks backed by my self-belief and have grown simple dreams into life changing journeys!

Life is not a destination!  
THE JOURNEY IS THE REWARD!

THE JOURNEY IS THE REWARD

My love for travel and life were  
Built not bought  
Hustled not handed  
Earned not given

But I want people to know that you CAN  
do whatever you dream of doing and  
that where you come from does not  
dictate where you will stay!
