Tribal Transportation Improvement Program

Executive Summary

The Navajo Division of Transportation (Navajo DOT), in partnership with the Bureau of Indian Affairs (BIA) Navajo Region Branch of Transportation (NRBOT), is responsible for approximately 5,000 miles of Tribal roads and 6,200 miles of BIA roads across the Navajo Nation. Approximately 15 percent of these roads are paved and the vast majority (85 percent) of these roads are unimproved dirt roads. Of the 1,700 miles of paved roads, over 50% are in poor pavement condition. Additionally, there are a total of 179 bridges maintained by the BIA NRBOT and Navajo DOT, of which 38 bridges are eligible for rehabilitation and an additional 28 bridges are eligible for replacement. The Navajo DOT and BIA NRBOT are challenged with a limited budget to maintain and improve these dirt and paved roads and address the rehabilitation or replacement of bridges.

The Navajo Nation receives approximately \$60 million annually from the Federal Highway Administration (FHWA) under the Tribal Transportation Program (TTP) to plan, design, build, maintain and operate Tribal and BIA-owned roadways within the Navajo Nation. Guided by the 25 Coded Federal Regulations (CFR) Part 170 Subpart D under the Tribal Transportation Program (TTP) for the *Transportation Planning, Tribal Transportation Improvement Program (TTIP), Long Range Transportation Plan (LRTP) development, annual update of the Tribal Transportation Facility Inventory and Public Hearings*, the Navajo DOT is charged to performed the critical functions in collaboration with the BIA NRBOT, local, state and federal agencies to develop a tribal transportation priority listing.

The 2023-2027 Navajo Nation Tribal Transportation Improvement Program (NNTTIP) outlines a five-year program regarding how funding is used to manage the transportation system. The funding in the TTIP is a five-year, fiscally constrained program, and it must be consistent with the goals and objectives of the Long Range Transportation Plan (LRTP), be in the Navajo Nation road inventory, and adhere to all relevant provisions found in the current transportation bill, Bipartisan Infrastructure Law (BIL). Projects listed on the 5-year TTIP have funds programmed for:

- Preliminary studies which are cultural, environmental impact studies, rights of way, centerlines surveys and design;
- Construction engineering funds are for construction administration; and
- Construction funds to construct the roadway improvements.

Annually, the Navajo Nation TTIP priority is updated with projects that are most critical to the communities and the Navajo Nation based on the prioritization criteria and submitted to the Resources and Development Committee (RDC) of the Navajo Nation Council for review and approval. The RDC-approved TTIP is submitted to Federal Highway Administration (FHWA) for final approval and will be included in the national transportation improvement program by FHWA.

Completed Construction Projects

Construction of thirteen (13) projects listed on the 2018-2022 NNTTIP were completed. These thirteen (13) projects constructed 46.7 miles of new pavement, 19.5 miles of stabilized aggregate base course surface, two (2) new roundabouts, two (2) new bridges, five (5) bridge replacements, 65.8 miles of right-of-way fencing, numerous concrete box culverts and culvert installations, cattleguards, and retaining walls for a total cost of \$169,687,079. These projects are listed below:

1. N55(3)1,2,4 – Alamo, NM (Eastern Agency)

The Navajo Nation, in partnership with the BIA NRBOT, constructed 8.7 miles of grade and drainage work, new four (4) barrel precast concrete box culvert, placement of aggregate base course and pavement, and miscellaneous construction work at a cost of \$20,836,651. BIA NRBOT provided preliminary engineering and construction engineering services. The project was constructed by Meridian Contracting, Inc. under a commercial construction contract.

2. N31(4)1,2,4 – Navajo, NM (Fort Defiance Agency)

The Navajo Nation, in partnership with the BIA NRBOT, constructed 5.5 miles of grade and drainage work, new three-span bridge, concrete box culvert installation, placement of aggregate base course and pavement, and miscellaneous construction work at a cost of \$17,498,262. BIA NRBOT provided preliminary engineering and construction engineering services. The project was constructed by the Navajo Engineering and Construction Authority under a P.L. 93-638 construction contract.
