- VI. QUESTIONS AND ANSWERS subsequent to the Pre-Proposal Meeting held April 10, 2022.

Q1: Page 119 of the project special provisions states the bid schedule has two alternate bid categories. One package is for hot asphaltic concrete pavement and the other is Chip seal, Type 2C. The current bid schedule does not reflect this alternate pricing option. Will the department be adjusting the bid schedule?

Request for Proposal (RFP)

Bid No: Bid 24-03-3293LE

Addendum No. 1

- A1: The statement on page 119 regarding the two alternate bids is leftover prior to final changes in the scope and is no longer relevant. No alternate bid options are proposed.
- Q2: Currently there is no wearing surface shown on the new bridge plans. Is it the intent of the department to place Asphalt on the new bridge? If Asphalt is to be placed on the bridge will the department please provide the structural section required?
- A2: It is currently the desire of NDOT to not place a wearing surface on the proposed bridge nor on the existing bridge.
- Q3: Pavement Structural Section 2 is not shown on any typical sections. Will the department please clarify where pavement section no.2 is to be placed?
- A3: Pavement Structural Section No. 2 is used for the unpaved portions of the turnouts.
- Q4: The plans seemed to have RGRCP specified for the storm sewer. I was curious if you are going to allow alternative products to be bid?
- A4: The Pipe Summary sheet and the Bid Schedule call for "Pipe Culverts". Addendum 1 addresses the NDOT allowable pipe materials at this time.
- Q5: Is the Unclassified Borrow (In-Place) quantity coming out of the several retention basins on the project or is this additional quantity that needs to be brought in for the project? Do you have an R-value for this?
- A5: The retention basin excavation quantities are included in the earthwork table. The borrow quantity is the estimate amount of borrow beyond the current design plans. Borrow may be obtained from approved source on or near the project, or hauled in. Sources must include environmental approval per Exhibit C- Special Contract Requirements, Section 4, Borrow and Aggregate Materials. The R-value is address in Addendum 1.
- Q6: I was looking at the project and saw that the GRS-IBS specifications reference Section 725. I can't find that in the project docs nor can I find it on the NDOT website. Would you please send that section to me or direct me to a website where I can find it?
- A6: The reference is to the Federal Provisions 14 (FP-14), Standard Specifications for the Construction of Roads and Bridges on Federal Highway Projects, Section 725- Miscellaneous Materials. For the GRS-IBS bridge, this specification addresses the polystyrene foam boards.
- Q7: Required contract form 1442 has not been completed with the project information, is the contractor to complete the information ourselves?

Request for Proposal (RFP)

Bid No: Bid 24-03-3293LE

Addendum No. 1

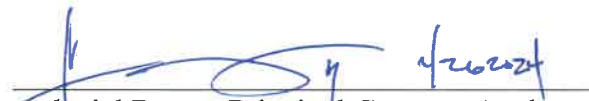

A7: No, Standard Form 1442 has been updated with the project information and is attached with Addendum No. 1. The updated form has also been incorporated into the Contract Book that is available for download on the Navajo DOT website.

Q8: What is the estimated construction cost or the budget?

A8: NDOT will not publicly share this information until after the written proposals are evaluated and the bid proposals are opened.

Obligation:

We, the Principal and Surety(ies) are firmly bound to the ~~United States of America~~ **Navajo Nation** (hereinafter called the Government) in the above penal sum. For payment of the penal sum, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally. However, where the Sureties are corporations acting as co-sureties, we, the Sureties, bind ourselves in such sum "jointly and severally" as well as "severally" only for the purpose of allowing a joint action or actions against any or all of us. For all other purposes, each Surety binds itself, jointly and severally with the Principal, for the payment of the sum shown opposite the name of the Surety. If no limit of liability is indicated, the limit of liability is the full amount of the penal sum.

Conditions:

The Principal has submitted the bid identified above.

Therefore:

The above obligation is void if the Principal - (a) upon acceptance by the Government of the bid identified above, within the period specified therein for acceptance (sixty (60) days if no period is specified), executes the further contractual documents and gives the bond(s) required by the terms of the bid as accepted within the time specified (ten (10) days if no period is specified) after receipt of the forms by the Principal; or (b) in the event of failure to execute such further contractual documents and give such bonds, pays the Government for any cost of procuring the work which exceeds the amount of the bid.

Each Surety executing this instrument agrees that its obligation is not impaired by any extension(s) of the time for acceptance of the bid that the Principal may grant to the Government. Notice to the Surety(ies) of extension(s) is waived. However, waiver of the notice applies only to extensions aggregating not more than sixty (60) calendar days in addition to the period originally allowed for acceptance of the bid.

8. Identify All Liens, Judgements, Or Any Other Encumbrances Involving Subject Assets.

Instructions

1. Individual sureties on bonds executed in connection with Government contracts must complete and submit this form with the bond. (See Federal Acquisition Regulation (FAR) 28.203, 53.228(e).) The surety must have the completed form notarized.
2. No corporation, partnership, or other unincorporated association or firm, as such, is acceptable as an individual surety (i.e. must be a natural person). Likewise, members of a partnership are not acceptable as sureties on bonds that a partnership or an association, or any co-partner or member thereof, is the principal obligor. An individual surety will not include any financial interest in assets connected with the principal on the bond that this affidavit supports.
3. United States citizenship is a requirement for individual sureties for contracts and bonds when the contract is awarded in the ~~United States~~ Navajo Nation. However, when the Contracting Officer is located in an outlying area or a foreign country, the individual surety is only required to be a permanent resident of the area or country in which the contracting officer is located.
4. All signatures of the affidavit submitted must be originals. Affidavits bearing reproduced signatures are not acceptable. An authorized person must sign the bond. Any person signing in a representative capacity (e.g., an attorney-in-fact) must furnish evidence of authority if that representative is not a member of a firm, partnership, or joint venture, or an officer of the corporation involved.

Obligation:

We, the Principal and Surety(ies), are firmly bound to the ~~United States of America~~ **Navajo Nation** (hereinafter called the Government) in the above penal sum. For payment of the penal sum, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally. However, where the Sureties are corporations acting as co-sureties, we, the Sureties, bind ourselves in such sum "jointly and severally" as well as "severally" only for the purpose of allowing a joint action or actions against any or all of us. For all other purposes, each Surety binds itself, jointly and severally with the Principal, for the payment of the sum shown opposite the name of the Surety. If no limit of liability is indicated, the limit of liability is the full amount of the penal sum.

Conditions:

The Principal has entered into the contract identified above.

Therefore:

The above obligation is void if the Principal-

- (a) (1) Performs and fulfills all the understanding, covenants, terms, conditions, and agreements of the contract during the original term of the contract and any extensions thereof that are granted by the Government, with or without notice of the Surety(ies) and during the life of any guaranty required under the contract, and
- (2) Performs and fulfills all the undertakings, covenants, terms, conditions, and agreements of any and all duly authorized modifications of the contract that hereafter are made. Notice of those modifications to the Surety(ies) are waived.
- (b) Pays to the Government the full amount of the taxes imposed by the Government, if the said contract is subject to 41 USC Chapter 31, Subchapter III, Bonds, which are collected, deducted, or withheld from wages paid by the Principal in carrying out the construction contract with respect to which this bond is furnished.

N6461(1-2)/N6460(1)1,2&4 Project in Dennehotso, AZ
PRE-PROPOSAL MEETING
April 10, 2024, 10:00 am MDT

- c. **Scope of Work consists of: grading and drainage; a Geosynthetic Reinforced Soil-Integrated Bridge System (GRS-IBS) bridge; placement of aggregate base course and hot asphalt pavement; box culvert construction; installation of drainage structures, gabion wall, cattleguard, signs, striping, guardrail, and waterline relocations; and other miscellaneous work as called for in the design plans and specifications for this 5.72 mile roadway project.**

Project includes: installation of geogrid across the project due to the amount of sand; some work will occur within the Arizona Department of Transportation (ADOT) right-of-way to pave one access road to US 160 requiring contractor to obtain ADOT permit and approved traffic control plans; and work around several sensitive cultural resource site locations that need to be considered during construction. The Navajo DOT will be responsible for archaeological monitoring during construction.

- What do you mean by turn around near burial site? Heavy equipment needs to be able to go in one direction along road, turn around past the burial site area, and go back in the other direction during construction.

- d. **Completion Time – Per Article 4.3 of the Navajo DOT Contract - Agreement.**

The Work will be substantially completed within 200 working days after the date when the Contract Times commence (Notice to Proceed) to run as provided in Paragraph 2.3 of the General Conditions, and completed and ready for final acceptance in accordance with Paragraph 14.7 of the General Conditions within 220 working days after the date when the Contract Time commence to run.

Please note that the above durations do not take into consideration non-working days for weather conditions, shutdowns during winter suspension(s) and holidays. See Article 12.3 of Standard General Conditions, Exhibit A for requirements related to Delay claims.

- e. **Bid Schedule/Item or Specification Changes –**

- **Specification Section 109 – added the Fuel Cost Adjustment language to the end of Section 109.06.**
- **Specification Section 152 - removed any reference to “Government furnished staking notes” as Navajo DOT will no longer provide these files.**
- **Specification Section 153 - major change being that the plans/bid schedule will no longer have a bid item for Contractor Quality Control (please refer to Section 153.01 below).**

153.01 This work consists of planning and implementing a construction quality process to ensure work conforms to the contract. This work also includes quality control inspection and documentation, and process control sampling and testing.

The Contractor shall be fully responsible for providing Quality Control of materials delivered to the site and the means/methods in which they are placed to meet the requirements of the contract documents and specifications. The

Contractor shall maintain records and make them available to the Government (if requested). There is no contract pay item for this work.

The Government will be responsible for completing the Quality Assurance testing and construction inspection to verify that the testing requirements and specifications are met to ensure construction plans are followed and all items of work conform to the contract requirements. All work shall be conducted under the observation of the Government and is subject to Government inspection and testing at all places and at all reasonable times before acceptance to ensure strict compliance with the terms of the contract.

- 6. Coordination with BIA Navajo Region Branch of Transportation (NRBOT) and Apache County District 1**
 - a. Project was designed by Dibble Engineering who will maintain the Engineer of Record responsibilities.**
 - b. All coordination with the BIA NRBOT and Apache County will be conducted by Navajo DOT and/or the designated project Construction Manager (CM).**
- 7. Utility Coordination – See Article 7.1 of the Navajo DOT Contract – Exhibit A - Standard General Conditions and Section 107.02 of the FP-14 Specifications.**
 - a. NTUA water and sewer – No known sewer conflicts in project. Two locations where the sewer does cross the proposed roadway will have the Navajo DOT contractor constructing protective concrete slabs.**

Seventeen (17) existing waterlines were found to require steel casings at proposed crossings. Contractor shall construct these encasements. At two locations, the waterlines have existing casing and these locations shall be protected in place. NTUA will provide water markers and contractor shall install.
 - b. NTUA power – overhead power lines were surveyed by NTUA Electric Division and found to have acceptable vertical clearance for proposed roadway. NTUA will install bracing and/or adjust wire down guys. All work by NTUA is scheduled to be completed by June 30, 2024. Contractor shall protect in place and protect workers.**
 - c. NTUA gas – NTUA does have existing natural gas facilities within the project area and plans show above utility features that are in conflict and which are to be protected in place. Navajo DOT have noted the “No Vibratory Compaction” limits on the plans. NTUA shall relocate the existing gas marker posts and features in conflict.**
 - d. Frontier fiber line – Frontier recently constructed fiber lines along the loop road. Two known conflicts identified on plans which Frontier will relocate prior to June 30, 2024. For the fiber optic line parallel to road, prior to construction activity in area, the contractor will stake roadway limits and Frontier will mark fiber lines and a field walkthrough will held with Navajo DOT, Frontier, and the contractor. Frontier will then relocate fiber in conflict areas.**

8. Navajo Nation Business Regulatory Department – Rochelle Tabaha (928) 871-7384
or rochelletabaha@navajo-nsn.gov

- a. Navajo Business Opportunity Act
b. Subcontracting Plan

For bid proposals, NN Business Regulatory Department does make sure that the priority businesses are opened first and they have a listing of priority businesses on their website that they go by. Priority 1 businesses are opened first, followed by Priority 2 businesses, and the Non-Priority businesses are opened last. The Navajo DOT is not allowed to award points to Priority 1 or Priority 2 contractors because they are already given preference to be opened first.

If you need to register to do business on the Navajo Nation, please contact Rochelle Tabaha for assistance. This is important because when contracts get to the NN Department of Justice, they want to make sure that you businesses are in compliance with NN Business Regulatory and if you are in good standing with our corporation code and policy. The Navajo Business Opportunity is law that we should abide by.

9. Review of Request for Proposal

- a. Page 2 - proposals must be submitted to Navajo DOT at the address shown. Electronic proposals will not be accepted.
b. Page 5 - all work performed on this project is subject to the 6% Navajo Sales Tax.
c. Page 5 – evaluation procedure and criteria, including the scoring criteria.
d. Page 6 – the proposals will be opened and evaluated in accordance with the Navajo Nation Business Opportunity Act.
e. Page 7 to 11 – Outline of Request for Proposal
f. Proposal must be submitted in a sealed envelope.
g. Bid Schedule must be submitted in a separate sealed envelope clearly marked as “Bid Schedule – RFP Bid 24-03-3293LE Project N6461(1-2)/N6460(1)1,2&4”.
h. Prime Contractor requirements – Self-Perform 50% of the work. See Special Contract Requirement, Clause NN-236-1.
i. Davis Bacon Wage Rates (Exhibit H of the Contract Book) apply for this Project.

All work will be performed in Apache County and the appropriate Davis Bacon Wage Rates will apply.

10. Addendum(s)

- a. Addendum(s) will be available for download from the Navajo DOT website. It is important that respondents check the Navajo DOT website for addendum(s). Contractor is responsible for checking the Navajo DOT website for Addendums.
b. Addendum Acknowledgement Form. Must be included in Proposal responses.

11. Any Questions?

- 1) Did you mention bonding information?

Response: Bonding requirements are included in the RFP and Contract Book.

- 2) Will NTUA make local water available for construction?

Response: No. Contractors will need to contact the Navajo Nation Department of Water Resources (DWR), Technical, Construction and Operations Branch (TCOB), Water Code Section at (928) 729-4132 to determine water source locations that are able to provide the amount of water needed for road construction. Contractors will need to apply for a Water Use Permit, including paying for the water, through the NN DWR TCOB Water Code Section. Further information can be found on website: <https://watercode.navajo-nsn.gov/>

- 3) Dennehotso Chapter plans to construct a new warehouse using American Rescue Plan Act (ARPA) funds starting around June 2024. The warehouse contractor will start bringing in equipment and materials. When will Navajo DOT's contractor start construction in this area and will the contractor be coordinating with the Chapter's contractor?

Response: The Contract Book includes traffic stipulations that the Contractor will need to consider in preparing their Traffic Control Plan. The Navajo DOT did not put stipulations in the Contract Book for the Contractor to coordinate their work with the Chapter's new warehouse construction. The Navajo DOT will add stipulation in the Contract Book that the Contractor will be responsible for coordinating their work with the new warehouse contractor.

- 4) Is the Unclassified Borrow (In-Place) quantity coming out of the several retention basins on the project or is this additional quantity that needs to be brought in for the project?

Response: The Unclassified Borrow (In-Place) bid item is an additional quantity of borrow (in-place) material that is needed for the project. The excavation quantity in the earthwork table includes the retention basins, so the Borrow item is the additional material developed outside of what is shown on the plans.

- 5) Do you have an R-value for this?

Response: This will be given in Addendum No. 1.

- 6) On the typical sections provided in the Plans, all it shows is "varies" on some of the cross slopes and dimensions. Is this information going to be put in or will it be determined off of the actual surveys?

Response: This information will be worked out with the Engineer of Record as we go due to the number of constraints to construct the different types of typical sections for the project. Each of these typical sections are not fully modeled like it is shown on the plans. The Engineer of Record and the Contractor will need to work together to make each typical section work based on the existing field conditions.

- 7) Is this the reason why the survey data is not going to be provided by the Government and that this information will be determined by the actual survey?

Response: No, the Government has changed the specifications for all projects and will not be providing any slope staking information to the Contractor on any projects.

12. Adjourn at 10:48 am.
