

Job Description: Technical Trainee (3 Positions)

UgaLumber Company Ltd

Position: Technical Trainee

Reports To: Production Supervisor / Operations Manager

Duty Station: Luwero

Contract Type: Trainee (6–12 Months)

About UgaLumber

UgaLumber Company Ltd is a strategic initiative of a collective of 20+ progressive commercial tree growers managing over 5,000 hectares of mature Eucalyptus and Pine plantations and aims to unlock the full value of Uganda's forestry sector by producing high-quality timber for the construction and furniture industries. UgaLumber helps individual tree growers to access high value markets, generate sustainable returns, and position Uganda as a regional leader in responsible and sustainable timber production.

Position Purpose

UgaLumber Company Ltd. is seeking motivated and hands-on Technical Trainees to support its timber processing operations. The successful candidates will receive practical training in sawmill operations, timber grading, machine operation, maintenance, quality control, inventory management, and workplace safety while contributing to daily production activities.

Key Responsibilities

- Assist in sawmill production activities including log handling, sawing, edging, trimming, and stacking.
- Learn and support timber grading, measurement, and quality control processes.
- Participate in machine setup, operation, and routine maintenance activities.
- Support production planning, stock management, and record keeping.
- Assist in monitoring timber recovery rates and minimizing waste.
- Observe and adhere to all health, safety, and environmental procedures.
- Participate in preventive maintenance and housekeeping programs.
- Support data collection and reporting on production performance.
- Perform other duties assigned by supervisors to support operational efficiency.

Qualifications & Requirements

- Diploma, Certificate, or Degree in:
 - Mechanical Engineering
 - Electrical Engineering
 - Industrial Engineering
 - Wood Science & Technology
 - Forestry

- o Production Engineering
- o Mechatronics
- o Related Technical Disciplines
- Recent graduates or candidates with less than two years of work experience are encouraged to apply.
- Strong interest in manufacturing, timber processing, and industrial operations.
- Willingness to work in a hands-on production environment.
- Good communication and teamwork skills.
- Basic computer literacy (Microsoft Excel, Word, and reporting tools).

What UgaLumber Offers

- Practical industrial training and mentorship.
- Exposure to modern timber processing operations.
- Opportunity to develop technical and leadership skills.
- Potential consideration for future full-time employment based on performance.
