## QUINTA DE S. SEBASTIAO

Quinta de S. Sebastião is located in a small town north of Lisbon called Arruda dos Vinhos, one of the sub-regions of the main region of Lisbon. Arruda dos Vinhos has a tradition of winemaking for over 1.000 years.

Quinta de S. Sebastião was founded in 1755, the same year of the earthquake that destroyed most of Lisbon. Quinta de S. Sebastião has since played a major role in restoring tradition and infrastructure while making outstanding wines.

The vineyards are located on the same hills of "Forte do Cego", which an old military fortification, that played a crucial role in defending Lisbon against the French invasions led by Napoléon Bonaparte.

Today Quinta has become globally recognized and continues to grow. The beauty of the Quinta is a complex combination of mild climatic factors, sunny slopes, geographic location, proximity to the sea, protection of the mountain, and of course the people who live and take care of Quinta de S. Sebastião's lands and vineyards every day,

# ARRUDA DOS VINHOS

It is said that under every farm in Arruda dos Vinhos there is a Roman Villa. There are many testimonies of the presence of the Romans in these parts, reflecting their passion for the nectar of the gods, not only for the fertility that these lands showed, but also for their geographical location, which made these lands one of the most important routes in the wine routes.

In Arruda dos Vinhos, the historical, cultural and gastronomic richness, always well accompanied, fascinates anyone, but it is its landscapes that reveal the natural secrets of this land. The green extends into orchards, cornfields and vineyards,

revealing here and there the whiteness of couples and farmhouses.

The valleys with different sun exposures and distinct slopes of fertile land, the influence of the sea air calmed by the mountains and the presence of water courses, create a balanced micro-climate, perfect for producing the best that is made in Portugal. Formed by limestone, marls, rings and sandstones, the soils can be considered productive in almost the entire area of the Arruda dos Vinhos municipality.

Help  
Save The  
Animals

# Q.S.S. RARE HELPS ENDANGERED ANIMALS

QSS Rare was created to draw consumers' attention to a serious problem we have today: endangered animals. The main idea is to make consumers aware of the cause and, in addition to tasting a fantastic wine, give them the opportunity to help a non-governmental organization committed to the protection of animals. For each bottle purchased, the consumer will be donating a fee to this organization.

Our partner, The League for the Protection of Nature (LPN) is a Non-Governmental Organization for the Environment (ONGA), of national scope and of public utility. With more than 70 years of existence, LPN is the oldest environmental protection association in the Iberian Peninsula.

# FORTE DO CEGO

## THE VINEYARDS THAT DEFENDED LISBON

Forte do Cego is located in Casal do Cego, Arruda dos Vinhos and is part of the historical route of Torres Vedras Lines, built to defend Lisbon from French Invasions led by Napoleon Bonaparte. It was also known as “Forte de S. Sebastião” name for which it was originally dubbed, due to its proximity to our Quinta. This new range was inspired by this same historic

route that is formed by 152 Forts that stopped the French Invaders. All these Forts and their diversity are represented on our new label in different shapes and colors. Today we color our history! Forte do Cego by Quinta de S. Sebastião.

### Rosé

# ARREIO

Wine and horses are central activities in the daily life of Quinta de São Sebastião and are closely linked to its history. Both are activities that depend on man's relationship with nature. In the case of the horses, this relationship is represented by the "Arreio", a Portuguese word

for Harness, as a representative piece of the intervention of man. In the wine, this relationship is represented by the way our winemakers, using the latest winemaking practices combined with the millenary knowledge, can produce a wine of excellence.

# SAN SEBASTIAN

S. Sebastião, who inspired and named Quinta de S. Sebastião, was a martyr and great warrior who believed he could dissuade the Roman Empire from the persecution of Christians. This range of wines, due to its irreverence, was also inspired by this historical figure who is intrinsically linked to the village of Arruda dos Vinhos where our Quinta is

located. This range is made up of wines from a Mediterranean climate with a strong Atlantic influence and blends of recognized national and international grape varieties. These wines are characterized by the involvement of their smooth, fruity, fresh and elegant flavours.
