

JÜLG

ORIGIN. HANDCRAFT. PASSION.

VDP. DIE PRÄDIKATSWEINGÜTER

A landscape photograph showing a vineyard at sunset. The sun is low on the horizon, casting a warm orange glow over the scene. The vineyard rows are visible in the foreground, and there are some trees with reddish leaves on the left side.

**MEDITERRANEAN
CLIMATE**

A landscape photograph of a forested valley. The foreground is filled with dense green trees, and the background shows rolling hills and mountains under a clear sky.

**PALATINATE
FOREST**

A close-up photograph of a vineyard. The foreground is dominated by a large pile of light-colored, irregular limestone rocks. In the background, there are green grapevines with clusters of grapes hanging from the branches.

LIMESTONE

A close-up photograph of a grapevine. The focus is on a cluster of small, pinkish-purple flowers or buds. The background is a soft, out-of-focus green, suggesting a healthy vineyard.

VDP.CLASSIFICATION

The VDP.Classification is determined by a clear guiding principle:
The closer the origin, the higher the quality.

JEAN-FRITZ

Jean-Fritz - half German, half French - is the epitome of the South Palatinate savoir-vivre: the love of wine, food and the social life. For this ideal, he not only goes to his limits, but literally beyond them. Day after day!

OPUS-OSKAR

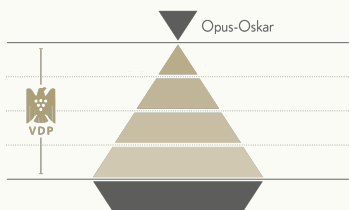

The creation of an exceptional wine, named after the founder of the winery is not an obligation, but pride. Grown on yellow limestone just over the French border, the best grapes, hand picking and selective use of wooden barrels are elemental to these unique wines.

VDP.SEKT

Apart from origin, craftsmanship and time play an eminent role here: pure hand-picking of only healthy grapes, traditional bottle fermentation, a yeast storage period of several years and the separation of the yeast by riddling the bottles are strict criteria.
