### ABOUT THE VINEYARD

In one of the highest points of our Quinta there is a place named after him, Miradouro da Vinha. Located at about 240 meters high and with a privileged view over the Tagus River, our viewpoint enchants those who dare to walk the steep slopes of our vineyards. In this very special place, we have an almost perfect perception of all our vineyard plots as well as a view that makes us immerse ourselves in the beauty and history of this region.
