WINERY

The Schlink family has produced the blue bottle riesling for over 200 years coming from the Nahe in Germany. Wein-Bauer was the first to bring the blue bottle in the market over 30 years ago. The Schlink Family is now on its fifth generation of winemaking, with innovation and quality still at the forefront. Since 1886 the Schlink Family has been based in the heart of German wine country, the Nahe. Located between Mosel and Rhein, Nahe is one of the smaller German wine regions. Its extraordinary range of soil types is second to none, and includes the entire rock cycle of igneous (volcanic), sedimentary (sandstone, clay, limestone) and metamorphic (slate) rocks. This is a peaceful landscape of vineyards, orchards, and meadows interspersed with cliffs and striking geological formations. Riesling, Müller-Thurgau, and Dornfelder are the most widely planted varieties.
