### **STEEL TARGET SHOOT**

What is it?

Handgun targets set at 45 feet and rifle targets at 100 yds.

You can use any caliber handgun and rifle, as long as the rounds are standard, copper jacketed or wad cutter.

There is a dueling tree for handgun where two shooters have three plates each. Shooters try to flip the plates from one side to the other before the opponent can flip their three plates to your side.

The other targets for pistol are just static round and silhouette targets which just serve as allowing the shooter to get the response of ringing steel instead of accuracy shooting at a bullseye.

The rifle plates range from 6"x 8" to about 3"x 5" for accuracy shooting and again allow the shooter immediate get feedback of the ringing of the steel target to signify a hit rather than using a spotting scope to confirm accuracy.

Where: Mercer County Sportsmen's Assoc.

Who: Members only.

When: 10-1 on July 12, Aug 9, and SEP 13.

Cost: Free!

**Building Traditions, Lasting Generations, Leaving a Legacy**
