

REPASHY SUPERFOOD

BEARDIE BUFFET - BEARDED DRAGON OMNIVORE GEL PREMIX

Beardie Buffet is a vitamin and mineral enriched, nutritious treat for Bearded Dragons. It can be made up and fed as a paste, gel, or smoothie.

We add Beardie Buffet to our Beardies salads for that little extra boost. It's a great supplement for all Beardies, particularly those who are ill, underweight, or malnourished.

This product has a long shelf life making it highly convenient during insect shortages or on the odd chance you run out of bugs. Beardie Buffet is also a great way to help satisfy those extra hungry little dragons!
