

Letter of Recommendation

I am happy to recommend Shawn and his crew from Data Net Communications for their electrical and data cabling expertise. I have nothing but praise for their level of professionalism, quality of work, and attentiveness to my needs, all for a competitive price.

Data Net Communications has consistently come through and exceeded our expectations on all of our requests, large and small.

My personal experience with Data Net Communications has been outstanding and they have impressed me with their quick response time in helping my firm meet deadlines on short notice. We will be using Data Net Communications in our future cabling projects and I am happy to refer them to other prospective customers.

Regards,

Johnson Hang

Director of Information Technology
