SUBJECT DOSSIER: PYRO

DESIGNATION: FLAME COMMANDER

STATUS

ACTIVE

LAST KNOWN LOCATION

FLAME Academy, Phoenix City

PLACE OF BIRTH

Jadefield Province

HEIGHT

6 ft 10 in

WEIGHT

397 lbs

AFFILIATES

FLINT

DAVID WHITFIELD

WAYNE WHITFIELD

ELIZABETH WHITFIELD

THREAT LEVEL: VERY HIGH

THREAT ASSESSMENT

01

Subject is classified as a high-threat individual capable of sustained lethal engagement across multiple encounters. Demonstrates significant influence within battlefield conditions through combat leadership, tactical experience, and direct engagement.

While not assessed as independently decisive at full battlefield scale, subject presents a substantial risk to opposing forces, particularly in prolonged or close-quarters conflict.

PSYCHOLOGICAL PROFILE

02

Subject displays controlled, disciplined behaviour shaped by prolonged exposure to frontline combat. Decision-making is practical and efficiency-driven, with minimal tolerance for unnecessary risk or deviation from objective.

Subject has sustained significant physical trauma in prior engagements, resulting in long-term physiological and psychological impact. Observed behaviour indicates increased self-reliance, restricted trust patterns, and a tendency to limit close operational associations.

Exhibits strong situational awareness and a preference for direct, decisive action when required. Emotional expression is limited, with focus remaining on survival, mission completion, and unit stability.

SERVICE HISTORY

03

FLAME Commander with extensive experience in active conflict zones. Records indicate a high level of combat effectiveness and sustained operational presence across multiple engagements.

Subject remains active, with continued involvement in frontline operations. Full deployment history remains partially restricted.

SPECIALIST CAPABILITIES

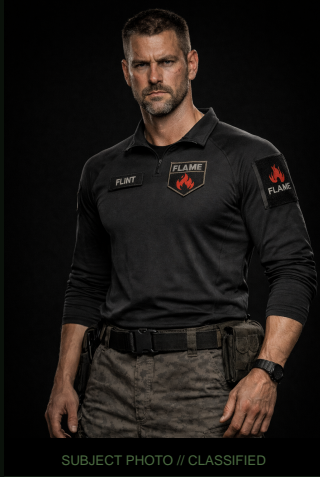

04

- > Close-quarters combat (high proficiency)
- > Advanced weapons training
- > Tactical command and battlefield coordination
- > High endurance under sustained combat conditions

NOTE: Subject should be considered a high-risk engagement target. Direct confrontation without adequate support is discouraged. All encounters to be reported to Citadel command.

AFFILIATES

LUMOS

PYRO

DAVID WHITFIELD

SHANNON WHITFIELD

ELIZABETH WHITFIELD

THREAT LEVEL: HIGH

THREAT ASSESSMENT

01

Subject is assessed as a high-threat combat operative with significant influence within FLAME Academy operations. As second-in-command, subject plays a critical role in maintaining internal structure, training standards, and operational readiness of cadet and active units.

While not operating at full command level, subject's presence directly impacts the effectiveness of personnel under FLAME authority. Demonstrates both frontline capability and institutional influence within the Academy environment.

Subject is one of the few individuals observed to directly challenge FLAME Commander Pyro when operational judgement is questioned, indicating a level of independence uncommon at this rank.

PSYCHOLOGICAL PROFILE

02

Subject exhibits strong loyalty to FLAME Academy, with behaviour indicating a protective stance toward both its structure and its cadets. Demonstrates disciplined and grounded decision-making, with a clear prioritisation of long-term stability over immediate gain.

Unlike many within similar roles, subject shows willingness to oppose superior command when necessary, suggesting confidence in personal judgement and a commitment to operational integrity over hierarchy.

Emotional profile indicates controlled but present empathy, particularly toward trainees, reinforcing subject's role as both leader and instructor.

SERVICE HISTORY

03

Subject originates from Ridgeford Province in the Northern Territories and has progressed through FLAME Academy ranks to assume the position of second-in-command.

Recognised as one of the Academy's most effective trainers, with consistent reports of high-performing cadet groups under subject's instruction.

Operational history includes both training command and active engagement, with performance indicating reliability and sustained effectiveness under pressure.

SPECIALIST CAPABILITIES

04

- > Advanced combat proficiency (close-quarters and ranged)
- > High-level training and instruction of combat personnel
- > Unit discipline and structural enforcement
- > Tactical support and command reinforcement
- > Operational judgement under pressure

NOTE: Subject should be considered a high-risk engagement target within FLAME-controlled environments. Influence over personnel and training structures increases threat potential beyond standard combat capability.

SUBJECT DOSSIER: NIKITA

DESIGNATION: LEADER OF SOUTHERN REBELS

SUBJECT PHOTO // CLASSIFIED

STATUS

ACTIVE

LAST KNOWN LOCATION

Southern Territories (South of the Trench)

PLACE OF BIRTH

Southern Lands

HEIGHT

5 ft 10 in

WEIGHT

160 lbs

AFFILIATES

LIONEL BRADY

THREAT LEVEL: MODERATE

THREAT ASSESSMENT

01

Subject is assessed as a moderate-level threat due to current geographical separation from Eurussian-controlled territories. The southern trench significantly limits subject's immediate capacity to influence battlefield conditions north of the line.

Despite this limitation, subject demonstrates the capability to organise, lead, and sustain rebel forces within the Southern Territories. Threat potential is considered conditional and may increase significantly if access beyond the trench is established.

Subject should not be underestimated. Current classification reflects containment, not capability.

PSYCHOLOGICAL PROFILE

02

Subject exhibits disciplined and controlled behavioural patterns consistent with leadership under prolonged conflict conditions. Demonstrates strong situational awareness and calculated decision-making, favouring strategic positioning over reckless engagement.

Behaviour indicates a pragmatic mindset, with a focus on long-term objectives rather than short-term victories. Displays resilience and adaptability in hostile environments.

Emotional profile remains guarded, with no observable instability. Subject maintains composure in leadership role, reinforcing authority among rebel forces.

SERVICE HISTORY

03

Records on early activity remain limited. Subject has risen to prominence within southern rebel structures, establishing authority through sustained operational success and strategic leadership.

Current role involves coordination of rebel operations south of the trench, including force organisation, movement, and engagement planning.

No verified direct engagements with Eurussian command units at scale due to trench separation.

SPECIALIST CAPABILITIES

04

- > Close-quarters combat proficiency
- > Ranged weapons proficiency
- > Strategic planning and battlefield positioning
- > Leadership of irregular forces
- > Operational adaptability in hostile terrain

NOTE: Subject represents a contained but scalable threat. Should southern forces gain access beyond the trench, immediate reassessment of classification is required.

SUBJECT DOSSIER: TATIANA ROMANOV

DESIGNATION: RELUCTANT HEIR OF KRASHNOV

SUBJECT PHOTO // CLASSIFIED

STATUS

ACTIVE

LAST KNOWN LOCATION

Romanov Estate, Krashnov

PLACE OF BIRTH

Krashnov

HEIGHT

5 ft 11 in

WEIGHT

150 lbs

AFFILIATES

ANDREW ROMANOV

OLESIA ROMANOV

LAZARUS WHITFIELD

THREAT LEVEL: HIGH

THREAT ASSESSMENT

01

Subject is assessed as a high-threat individual with advanced combat proficiency and lethal capability in both close-quarters and ranged engagements. Unlike traditional political heirs, subject has rejected formal leadership pathways in favour of direct combat application.

While currently disengaged from active political structures, subject retains proximity to Krashnov's ruling authority, creating a dual-risk profile combining elite combat ability with potential access to high-level influence.

Threat is not derived from position, but from capability. Subject is capable of lethal engagement against both trained operatives and high-value targets with minimal support.

PSYCHOLOGICAL PROFILE

02

Subject exhibits cold, controlled behavioural patterns with minimal emotional expression. Displays a detached and pragmatic worldview, favouring action over political discourse.

Evidence suggests long-term disengagement from expected societal role, resulting in rejection of authority structures tied to her status. Subject demonstrates strong independence and resistance to imposed expectations.

Underlying behavioural pattern indicates restlessness and suppressed aggression, likely driven by lack of active conflict. Ruthlessness is present but not erratic — actions appear calculated and intentional rather than impulsive.

SERVICE HISTORY

03

Born into the Romanov family of Krashnov, subject was raised within proximity to political and military power structures.

Rather than assume a traditional leadership role, subject diverged from expected trajectory, pursuing combat training and operational capability.

Operational history remains largely unrecorded in official channels, suggesting either deliberate omission or independent activity outside formal command structures.

SPECIALIST CAPABILITIES

04

- > Elite hand-to-hand combat proficiency
- > Advanced weapons handling
- > Stealth and assassination capability
- > High adaptability in hostile environments
- > Independent operational execution

NOTE: Subject should be considered a high-risk close-range threat. Engagement is strongly discouraged without numerical or tactical advantage.

SUBJECT DOSSIER: RYSE

DESIGNATION: SENIOR COMMAND OFFICER, SOUTHERN TRENCH

QUINN

TRENCH COMMAND PERSONNEL

THREAT LEVEL: HIGH

THREAT ASSESSMENT

01

Subject is assessed as a high-level operational asset within the Southern Trench command structure, with direct access to frontline coordination, deployment logistics, and strategic planning.

Position within Central Command allows oversight of multiple trench sections and movement between operational zones, granting broad situational awareness across the southern front.

Subject's consistent presence in high-risk environments and proven operational capability increases overall value to command structure while presenting elevated risk should alignment shift.

PSYCHOLOGICAL PROFILE

02

Subject presents as disciplined, controlled, and professionally aligned with established command hierarchy. Behaviour is consistent with high-performing FLAME-trained operatives, demonstrating strong adherence to structure and operational directives.

Displays pragmatic decision-making under pressure, with emphasis on mission completion and unit stability.

Demonstrates high adaptability in hostile environments, with no recorded deviation from assigned objectives.

SERVICE HISTORY

03

Trained under Pyro as part of advanced FLAME operational development, progressing through ranks within the Southern Trench structure.

Recognised for consistent performance in high-risk deployments beyond the trench line. Subject is among the limited number of personnel to return from multiple extended operations in southern territories, maintaining an unusually high survival rate.

Continued advancement within trench command attributed to reliability, discipline, and operational success.

SPECIALIST CAPABILITIES

04

- > Advanced combat training and field leadership
- > Operational coordination across multiple trench sectors
- > High survival rate in hostile environments beyond the trench
- > Adaptability under sustained threat conditions

NOTE: Subject is regarded as a reliable and effective officer within the Southern Trench command structure. Continued monitoring recommended due to level of access and operational reach within frontline command.

SUBJECT DOSSIER: SHANNON WHITFIELD

DESIGNATION: WHITFIELD FAMILY MEMBER

STATUS

ACTIVE

LAST KNOWN LOCATION

Whitfield Palace, Phoenix City

PLACE OF BIRTH

Phoenix City

HEIGHT

CHILDREN

LEO WHITFIELD

MARIN WHITFIELD

AFFILIATES

WAYNE WHITFIELD

LAZARUS WHITFIELD

DAVID WHITFIELD

ELIZABETH WHITFIELD

PYRO

LUMOS

LUKE WALKER

THREAT LEVEL: MODERATE

THREAT ASSESSMENT

01

Subject holds moderate-level significance due to proximity to high-value individuals and sustained presence within the Whitfield family structure.

While lacking formal authority, subject maintains consistent influence over internal family dynamics, particularly during periods of tension.

Primary risk factor is not direct control, but the ability to influence others in protection of family interests.

PSYCHOLOGICAL PROFILE

02

Subject presents as composed, perceptive, and stabilising within the Whitfield family structure. Behaviour indicates a consistent role in maintaining cohesion between key family members, often acting to reduce conflict.

Displays above-average observational awareness and demonstrates strong pattern recognition in interpersonal dynamics.

Profile aligns more closely with maternal behavioural patterns than those observed in Wayne Whitfield, favouring restraint and controlled action when required.

SERVICE HISTORY

03

No formal military or operational service recorded.

Presence within central political environment maintained through Whitfield family position.

SPECIALIST CAPABILITIES

04

- > Influence within family network
- > Conflict de-escalation
- > Protective decision-making
- > Observation and awareness

NOTE: Subject is regarded as a stabilising presence within the Whitfield family. Limited direct authority, though continued monitoring recommended due to proximity to high-value individuals.

SUBJECT DOSSIER: QUINN REYNOLDS

DESIGNATION: FLAME TRENCH COORDINATOR

STATUS

AFFILIATES

ELIZABETH WHITFIELD

PYRO

MARIO (WC)

MARY (EC)

SAMMY (AC)

THOMAZ (PC)

RYSE

THREAT LEVEL: HIGH

THREAT ASSESSMENT

01

Subject is assessed as a high-level operative due to consistent presence within frontline command structure and direct coordination responsibilities at the southern trench.

Demonstrates strong situational awareness and the ability to interpret shifts in behaviour and environment, often anticipating escalation before it occurs.

While not a primary commander, subject's role allows influence over tactical outcomes through coordination, timing, and interpretation of battlefield conditions.

PSYCHOLOGICAL PROFILE

02

Subject presents as controlled, observant, and highly analytical. Behaviour indicates strong awareness of interpersonal dynamics, with the ability to read individuals and identify emerging instability.

Displays measured decision-making, favouring observation and timing over immediate action. Emotional expression remains limited. Communication is direct and task-focused.

Subject is considered reliable under pressure, with no indication of hesitation in high-risk environments.

SERVICE HISTORY

03

Trained within FLAME structure, achieving top performance at Ember West.

Received recommendations from Luke Walker and Lily Walker for contributions toward improvement of training programmes. Contributed to development of drone-based tactics utilised by Green Guard units.

Currently assigned to trench coordination role within Central Command.

SPECIALIST CAPABILITIES

04

- > Battlefield coordination
- > Situational awareness and behavioural analysis
- > Predictive threat recognition
- > Operational communication
- > Drone tactic development support

NOTE: Subject maintains consistent operational presence within trench command and is regarded as a reliable asset in high-pressure environments. Continued observation recommended due to proximity to key personnel and demonstrated capacity to anticipate operational risk.
