

PROGRAM OVERVIEW

Our Toddler Program is a play-based program which focuses on the child's language skills, social skills, and self-help skills as well as providing each child with the foundation for a positive self-image. The program uses developmentally appropriate practices incorporating structured and unstructured activities and positive discipline techniques to reach these goals.

- **Toilet Training** – Our teachers guide your child to use correct bathroom habits.
- **Parent Support** – We team up with parents to ensure security and self-esteem.
- **Purposeful Movement** – Learn to explore and make choices in a safe environment.
- **Hands On** – Through contact with his environment to enrich his experience.
- **Social Interaction** – Your child learns to assist others through everyday tasks.
- **Music** – Develop listening and language skills, new vocabulary, and self-confidence.
- **Independence** – Independent selection, engagement, and mastery of lessons.
- **Practical Life** – Care of self, environment, and food preparation.
- **Sensorial** – All materials are driven by the development of the five senses.

Our preschool program provides your child with the BEST possible Early Childhood Program. Here at Kreative Kidz we believe our dedicated & caring teachers coupled with our creative curriculum, hands on child centered learning environment and healthy lifestyle will help us achieve this goal. Our program is designed to educate the whole child with emphasis on outdoor play & learning, social emotional growth & individualized care.

- Individualized, children lead learning activities to gain skills for kindergarten readiness.
- Implementing an adaptive, hands-on curriculum, while assessing & documenting development
- Fostering relationships & trust
- A safe & stable environment is necessary for children to comfortably explore and learn from their surroundings.
- Emphasis on social emotional growth & relationships with teachers & peers
- Guiding children in gaining skills to meet milestones.

Outdoor Classroom creates a world of wonder.

Kreative Kidz outdoor classroom is where children of every age group get to experience nature in fun, new ways that inspire learning and creativity. Outdoor learning provides children with opportunities for exploration, creative thinking, risk taking, using their senses, and most importantly, hands on learning through play. Time spent outdoors regulates mood and benefits physical health, but what we call our outdoor classroom is the heart of Kreative Kidz offers so much more.

Outdoor Classrooms Include:

- There is time for expanding outward to develop the physical body, develop imaginative skills and deepen the connection with nature.... run, climb, build, explore and create!
- Gardens kids tend to put hands-on learning into action, teach life cycles firsthand, and inspire an appreciation of nature.
- A focus on all-natural elements connects your child to nature's serenity, and shaded areas are cool places to enjoy free play.
- A sandbox loaded with tools, along with water, lets children measure, sift, pour, and press, introducing them to cause and effect and basic math concepts.
- A mud box which invites hands-on, sensorial play, sparking brain connections, and an understanding of nature's elements.
- A dedicated area with puzzles, blocks, and magnets exercises fine motor skills and spatial concepts while inviting creativity.
- A writing and art area loaded with books, and opportunities for dramatic play is a place to get lost in ideas, expression, and imagination.
