- Equipment check: After the rider has given the final salute, the rider must ride up to "G" and turn the horse so that the horse is broadside to the camera/judge to enable the judge to see and perform an equipment check. Wait 5 seconds, then turn the horse so the judge can perform an equipment check on the other side. Following the equipment check the rider must dismount and safely drop the bit so the videographer can film a "bit check". The bridle needs to be held out in the open, clear of the horse and rider's bodies, so the judge can clearly see the bit. Your video must be one continuous filming without breaks or edits from the time of entry at "A" until the equipment bit check is complete.
