

THE LOWER PLATTE SOUTH NRD

maintains and operates nearly 200 dams throughout the district to control flooding. Eight of those dams are also managed for recreation and are open to the public year-round. There are no entry fees, but state fishing and hunting permits are required. Enjoy them all!

Meadowlark - Four miles west, one north and one west of Agnew

Red Cedar - Six miles north and two west of Valparaiso

Timber Point - One mile east, one south and one east of Brainard

Wildwood - Two miles north of Branched Oak Lake

Cottontail - One mile north of Martell

Merganser - One mile north and one east of Kramer

Tanglewood - One mile west of Kramer

Wild Plum - 1.5 miles north and 0.5 west of Kramer

LANDOWNER COST-SHARE

The Lower Platte South Natural Resource District (LPSNRD) helps landowners pay for improvements designed to enhance conservation of natural resources through our cost-sharing programs. Each year, LPSNRD cost-shares with approximately 250 landowners who make improvements to reduce soil erosion. These include creating terraces and grassed waterways on their fields, constructing sediment basins and more. These measures lead to better quality surface water. In order to provide these cost-sharing programs, we work with several other government agencies including:

Natural Resources Conservation Service (NRCS): Formerly called the Soil Conservation Service, the NRCS is a part of the United States Department of Agriculture (USDA), a federal agency with an office in most counties. NRCS provides technical assistance with installing conservation practices, such as design and layout of projects.

Nebraska Department of Natural Resources (NeDNR): The NeDNR is a state agency that allocates state funds to each Natural Resource District for cost-sharing on conservation practices. LPSNRD will forward some cost-share claims on to NeDNR for payment.

The amount of LPSNRD cost-sharing varies from program-to-program. Occasionally the district designates targeted areas where the cost-sharing is even higher than the listed amount in order to encourage best management practices in those areas. Unfortunately, we can no longer cost-share on terrace/basin layouts by private contractors.
