Answers on the back

The Florida Keys are a chain of islands 100 miles long.

"Key" comes from the Spanish "cayo," meaning small island.

Key Largo means "Long Key" and it is the longest of all the Florida Keys at 26 miles.

The Keys were originally inhabited by Calusa and Tequesta Indians.

The upper islands are made of coral rock, millions of years old. They used to be under the ocean!

Fishing is a favorite pastime in Key Largo. People tell others their fishing stories, called "fish tales."

Scuba diving is also a favorite thing to do here.

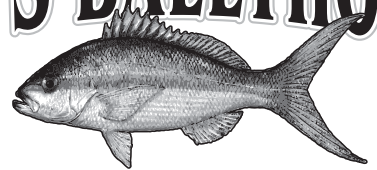

Find 5 things different on these 2 divers:
