

# Alexandria Bay Advanced Open Water Weekend

On the road again...  
20 - 22 August 2021

So, we hit the road again! This time we headed north to the St. Lawrence Seaway, Alexandria Bay to be exact and did some diving with Blue Foot Diving. Charter Captain Andrew is absolutely outstanding! He is a wealth of knowledge on the area and the wrecks.

Fridays dives were recon dives to get to know the area and wrecks in preparation for the weekends AOW students. We even had the opportunity to try out some underwater scooters thanks to Lauren and Nate.

Saturday and Sunday were down to business with the AOW students, completing their certification on the wrecks of the Keystorm, the America and the Islander. What a fantastic area for Advanced Open Water!
