

15 - 18 JULY 2021

# THE GRAVEYARD OF THE ATLANTIC

## Road Trip!

We're on the road again. This time with Olympus Dive Center to dive the Graveyard of the Atlantic.

We were scheduled for four days of dives and were only able to get three in due to the weather. However, those three days were full of historic wrecks like the U-352, a German U-Boat, the Caribsea, the SPAR a Coast Guard cutter which was intentionally sunk as an artificial reef and the Atlas Tanker. What an experience diving these wrecks that were teeming with life such as Sand Tigers, Jacks, Barracuda, Oyster Toadfish and who could forget the giant bait balls!

The crew of the Midnight Express were very accommodating to our requests for dive sites and their help getting in and out of the water was greatly appreciated.

Looking forward to our return to Olympus in July of 2022!
