Like New Portable Golf Cart Heater
Electric 48 Volt Climate Caddy Heater and Fan
Only \$75

48 Volt PTC heater that produces 100 degree plus warm air and has a fan to cool you off on warm days.

Bi-Level vent system points air exactly where you need it and attachment arm points the unit at a perfect angle toward the driver.

Electronic Eye automatically turns off the unit after 30 seconds if no occupants are detected and turns back on when it detects a passenger.

Install is easy. Simply slip the unit into the cup holder of the cart and connect to the battery with easy to use alligator clips.

Made of durable high impact UV-resistant plastic with weatherproofing protection.

Includes User Manual all parts and wiring needed to connect the unit and a convenient carry case.
