# Trinity Mystical Energy

Our Mission is to create an environment where healing can occur in body, mind, and spirit. We begin by learning to heal ourselves, so that we can become an authentic channel for healing energy to flow through us. Then we teach others to do the same in a loving and supportive community.

We understand that this is an on-going process, ever evolving, as our energy vibration expands to accommodate higher, fuller, and brighter levels of flow. Our curriculum is based on a three-year model, with programs in place for continuing education after graduation.

The result is a community of healers, supporting each other on their personal journey, while having the anchor of a Spiritual Home that they can return to for healing, guidance, and loving support.

## *Understanding Multi-Dimensional Quantum Healing*

Multi-Dimensional Quantum Healing is healing energy that works with energy through vibration, frequency, particles, and waves. It flows through the person as a conduit for the healing, at a rate equal to the expansiveness of the Practitioner's personal energy system. Ancient healing techniques are reintegrated within the Practitioner corresponding to their personal vibration and frequency. The clearer they are as a conduit, the fuller the energy flow they have access to.

Students are taught as part of the curriculum: Multi-Vibrational Healing, Alchemical and Egyptian Healing, Lemurian and Crystal Healing, Native Indigenous Healings, Transformational Reiki, Psychic and Intuitive Development, Sound Healing, AromaTouch and ChakraTouch Healings, Quantum Psychics, Sacred Geometry, Past Life and Karmic Healings.

### **Tuition:**

There is a non-refundable Application Fee of \$100.

In addition, the Yearly Tuition is only \$3,333 for online instruction and 3 weekends of in person class comprised of OVER 100 hours of instruction.

It is in the giving, that you receive and it is in the loving one another, that you come to know and live the meaning and purpose of life.

### *The Ancient One:*

*“In ancient times, there was tremendous healing power available to flow through the Holy Medicine Carriers to heal most ailments. Through the energy of loving care and selflessness, many people were healed in ways that would seem miraculous in today’s times. But, as is bound to happen, things changed. One day a Medicine Carrier realized that he could manipulate the healing energy to create for himself, distorting the energy to serve him, with a disregard for the consequences to others. The Gods were very displeased and decided that no human should possess the single healing power but rather the strands of healing should be separated and flung throughout the Universe. Only when the time of Great Need was upon the Earth once more, would the healing energy be allowed to come back to Self, and only at the hands of those with Pure Intent. The time for the Great Need has arrived. The healing strands will be rewoven and held within, one by one, until all the healing can flow in the Greatness once more.*

*You, my dear, are meant to reassemble the lost strands of healing. They will integrate slowly, so that you may learn to teach others to do the same. This is to become known as Multi-Dimensional Quantum Healing, as it moves particles, waves, frequency, and vibration in this dimension and beyond.”*
