

All roads need to be improved. One of the worst traffic congestion locations is I-405 near downtown Bellevue. Since the 41st District is centered around this location, my focus will be on improving I-405 capacity near downtown Bellevue.

Highway lanes that require a fee to drive in them are not fair, all taxpayers paid for the construction of roads therefore some lanes should not be reserved for those that have the ability and are willing to pay more to drive in a fee lane.
