

How does our cost for a Saturday wedding with 125 guests (\$4,500) compare to a tented wedding in your back yard?

 (Spoiler Alert: The comparable wedding in your back yard will cost more than DOUBLE!)

\$3,400	3,400 sqft structure tent - Though the beauty of our authentic barn is no comparison!
\$128	Sidewalls - Tent sidewalls really don't compare to our lap wood siding walls, windows, & functional barn sliders, visible inside and outside but it's the best comparison we could find
\$400	Portable toilet - Our bathroom is gorgeous, complete with a beautiful vanity backsplash made of our barn's original siding. Can you really compare that to a portable toilet?
\$400	Fans - pole-mount rental fans can't compete with our ceiling fans in beauty
\$750	Bistro lighting - This is just the rental cost of 500 ft. of lighting. Don't forget, you need to add the cost of mounting hardware.
\$880	Regular Lighting - Light towers compared to our jelly jar and ceiling fan lights.
\$190	Tables - (2) 6' wood farm tables (Ours are handmade from our own trees!)
\$40	Tables - (4) 6' folding tables
\$184	Tables - (16) 5' round tables
\$500	Chairs - 125 white resin folding chairs
\$400	Whiskey barrels (10)
\$300	Patio stand heaters (4)
\$500	Generator - Depending on your needs, generators can exceed \$1000.
\$1700	Flooring - Our combination of stamped concrete and real wood flooring are a serious upgrade from our comparison, black turf carpet (\$0.50/ft).
\$648	Dance Floor (18x18)
-----	We can't find a comparable rental for the following items, but just imagine if you added them to your rental tab!
\$10,400	+Parking attendant
+ delivery & set-up	+Barn use Friday evening - hosting the rehearsal dinner & being able to set up the night before. In order to use the tent an addl. day, your cost will likely increase by at least 25%.
+ all of these addl. values & services	+ 1 hr. onsite for engagement or bridal photos
	+ 1 hr. walk-through with your vendors - (1mo. prior)
	+Experienced guidance & coordination - with you, your vendors, & your planner throughout the entire process
	+Robust planning portal - for use in planning & coordination with all parties involved
	+Rain plan - If it rains at Due Sorelle Farm, you get to host your ceremony in our GORGEOUS barn. If it rains in your back yard, you have to get married in a tent
	+Open-air patio with fire pit - complete with furniture & bistro lighting next to the barn. We couldn't really find that for rent.

Don't worry, you aren't the 1st to be surprised by this one. We created this page because so many couples thought the backyard wedding would be cheaper & easier... & they regretted it. When planning the biggest and most important day of your life, it's best to rely on the experienced professionals! Contact us today. We can't wait to talk to you & start planning your fairytale wedding!
