Your view to a happier, healthier life

RELAX. COMFORT. LISTEN. SLEEP. PLAY.

TELEHEALTH SERVICES PRESENTS ORIGINAL WELLNESS RELAXATION VIDEO FOR BETTER OUTCOMES

Created in conjunction with leading medical institutions, Sharecare Windows's original Wellness programming features exquisitely beautiful visuals paired with naturally occurring sounds. Select programs are accompanied by original music scores composed specifically for Sharecare Windows—proven effective in reducing intrusive noise levels, reducing stress levels and encouraging healthy sleep patterns.

Sharecare Windows' programming is cataloged by purpose and practice. Original HD imagery provides hours of soothing relaxation and entertainment with broadcast quality video and audio. Programs run from 30 minutes to eight hours and are engineered for Interactive networks. Organized by theme and tempo, healthcare professionals can select from multiple offerings.
