

To begin, cut around the outer-most black line. Once the two magazine strips are cut out, fold inward on the green marks and outward on the red marks. Unfold the strips and cut off the red and green indicator tabs. If you're in a hurry, you can skip to cutting directly along the pictures. Match up the tabs marked "A" and "B" with the corresponding tab. Using a glue stick, glue in between all pages (all white parts of the paper). You should now have yourself your very own issue of Swanky Magazine! Please enjoy and make sure to share your dolls enjoying their read on socials! Tag @thatsoswanky and hashtag #thatsoswanky on all platforms <3

Ideal printing size is 8.5 X 11 for 1:6 scale dolls & figures
