Electrical Inspection Application

https://inspector.firstenergycorp.com/content/fe-inspector/login.html

April 2020

![Met-Ed - A FirstEnergy Company]
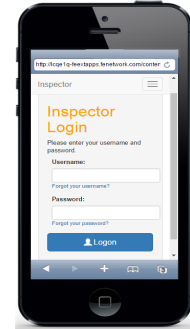

Electrical Inspector/Administrator,

Met-Ed is introducing a new way to submit your approved electrical inspections. The current process is to fax all inspections to 1-877-656-4380. This service will still be available; however, Met-Ed now offers an alternative that will send the inspection to us and help keep track of past and future inspections sent. It is a web address that can be accessed on an iPhone or Android device, or computer terminal connected to the internet. If interested, please send back the information below. We will create your account and provide you a customer guide with further instructions.

Send the following information to:
Email: ehouser@firstenergycorp.com
Or Fax to: 330-315-8973
