ABOUT COMPANY

1999: Advance Margin Corporation Co., Ltd. started its business distributing telecommunications equipment, along with retail and wholesale of Mobile SIM Cards. We received service standard certification from AIS to operate as a Telewiz Express.

2011: Operated PSI satellite dish installation business, receiving awards for top sales and standard installation teams, with a registered capital of 1,000,000 THB.

Later expanded the business into designing and installing CCTV, Access Control, and Network systems.

2016: Started importing CCTV products under the brand "Advance Plus", leading to continuous business growth.

2024: The company officially received the Green Industry (Level 2) certification.

Currently: The company specializes in comprehensive Smart Solution system integrations.

VISION & MISSION

VISION

To be recognized as Thailand's #1 Smart Solutions and Security Service provider, driven by a commitment to safety, technological excellence, and environmental sustainability.

MISSION

To provide exceptional smart technology and security integrations that empower our clients to achieve their goals safely and efficiently, while proactively contributing to a greener future.

STRATEGIC & FUTURE GOALS

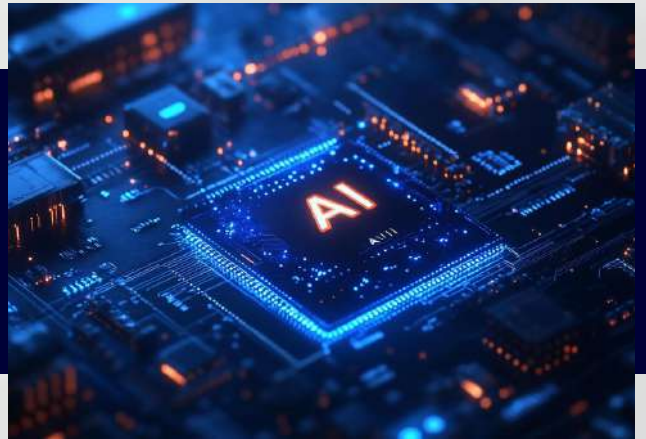

Smart Infrastructure

Delivering fully integrated systems for Smart Cities, Smart Factories, Smart Warehouses, and Smart Education.

Advanced Technologies

Implementing cutting-edge Artificial Intelligence, Automation, and Robotic Auto systems to streamline client operations.

Core Excellence

Maintaining uncompromised standards in comprehensive Security Systems and premium Service Quality.

PRODUCTS & SERVICES

Advance Margin Corporation Co., Ltd. provides comprehensive smart solutions and security integrations. We deliver end-to-end services, from strategic planning and professional installation to proactive maintenance, ensuring maximum efficiency and safety for your business operations.

1. Planning & Design

We offer strategic planning and system design tailored to your needs. Our expertise includes smart solutions for classrooms, warehouses, factories, and cities, alongside comprehensive security systems and green energy solutions.

2. System Installation

Our professional team handles complete system installation, including hardware anchoring, setup, and configuration. We carefully adjust and customize the system, followed by thorough testing and revisions for flawless operation.

3. Service & Maintenance

We provide reliable after-sales service and preventive maintenance to keep your systems running smoothly. Our support includes continuous system editing, troubleshooting, and upgrades to improve long-term performance.

WHY CHOOSE US?

1. End-to-End Solutions

Comprehensive services from planning to maintenance.

2. Professional Expert Team

Highly skilled engineers and technical support teams.

3. Fast & Reliable Service

Prompt response and effective problem-solving.

4. High-Quality Products

Premium, internationally certified technology.

5. Attention to Detail

Meticulous care in every step of installation.

6. Cost-Effective Value

Optimal pricing with maximum return on investment.

SUSTAINABILITY & SOCIAL RESPONSIBILITY

Project 1: Community Health & Safety Initiatives

- Donating essential medical supplies (masks and sanitizers) to hospitals across Chiang Mai and the Bangkok metropolitan area.
- Providing drinking water to support forestry officers in Nakhon Ratchasima and local administration officers in Bang Phli.
- Installing comprehensive CCTV security systems for Wat Nakharat School in Samut Prakan to ensure student safety.

Project 2: Educational Development

Supporting local education at Ban Chat Trakan School, Phitsanulok. We fully funded and constructed the main school signage to build community pride. Additionally, we organized educational guidance activities to inspire and prepare students for higher education.
