and experiences.

- 1) She needs to be involved in a recovery program.
- 5) Mother should attend Alanon
- 6) The parents would benefit from therapy on their own.
- 7) A speech, language and learning evaluation is recommended.
- 8) The subject has a number of unresolved issues that interfere with separation. She will have to forgive and move on with her own life. She needs to develop goals and plans. She is a very needy person however will respond if a therapeutic relationship can be established. She needs to become more adequately socialized. A stress management plan should be developed.
- 9) A direct approach in therapy is suggested such as Glasser's Reality Therapy

**DIAGNOSIS**
