EXHIBIT N

- 5.) 24/7 365 was also important when we were at our peak times for auto detailing; my guys would get there early to set things up for the day and we would stay sometimes until midnight when we were slammed.
- 6.) I don't believe for 1 minute that with James Degorski's 24/7 365 access, he would ever bring a car to an outside carwash where the water didn't mist from the hoses, it dribbled. There is no way he could extract any water from the carpets or seats after washing them, with the powerless vacuums that had no suction. James had access to a fully professionally stocked and HEATED detail shop. And it did not matter whether he was actually 'employed' by me at any time, he was my friend whom I trusted explicitly to come and go if he wanted to clean his cars. I would not make him pay me to do what I taught him to do, and *could* do whenever he felt like it. He always left a couple bucks to cover materials. There was never any problem.
