IMPROBABLE RESPONSES

The responses listed below may reflect unusual circumstances that are completely accurate, but may also reflect a conscious attempt to distort the clinician's view of the patient or may point to simple mistakes in responding to the computerized questionnaire. The clinician is urged to question the respondent and/or the patient about the accuracy of the following information:

- no improbable responses were found

REPORTED ASSETS/STRENGTHS

In assessing any individual, it is important to consider assets as well as liabilities. The following strengths were reported by Ms. Lockett.

- involvement in counseling
- reportedly adequate intelligence *\$ college graduate!*
- more than adequate living quarters
- good health history
- accountability for household tasks
- social abilities
- positive work experience
- positive school behavior
- no reported attention span problems in school
- intact family

NO >  
need to  
oddly have  
her Grand  
Jury short  
testimony  
written  
out for  
her by Palatine Police  
& Prosecutors to  
very oddly read to  
the Grand Jurors!
