Catholic Sisters’ Week – March 8-14th – presented by the Sierra Club of Iron Mountain-Kingsford. Please pray, encourage, and thank our sisters and nuns this week who are active in our Diocese for their selfless service and love for Christ.

PRO-LIFE CORNER

Are you aware that many pregnancies are often not detected until the 6th week or later? By that time, the baby’s heart has been beating for over two weeks, brain waves can be detected, and the nervous system is complete. Yet the majority of abortions take place during this time of development.
