Our National Security and Personal Safety Are At Stake In This Election

A Growing List of Over 200 Retired Generals and Admirals Endorse Donald J. Trump for President

[Richmond, Virginia] [September 30, 2024]: Today, over 200 retired generals and admirals are endorsing Donald J. Trump to be president. This list grows as an increasing number of retired military leaders recognize Trump has demonstrated the leadership ability needed to provide for the safety and security of the United States of America. Donald Trump has a proven track record of success providing the most fundamental responsibilities required of a U.S. President: protecting national security, domestic safety, and the U.S. Constitution.

The current administration, led by the President and Vice President, has allowed our nation to become unsecure, our citizens unsafe, and our country divided due to the cultural war being waged across America in the form of Diversity, Equity, and Inclusion (DEI).

This divisive domestic strife is dividing our Country, allowing our foreign adversaries to take advantage of the political/social disorder in America. A recent bipartisan congressional report "Commission on the National Defense Strategy" said: "The United States confronts the most serious and the most challenging threats since the end of World War II. The United States could in short order be drawn into a war across multiple theaters with peer and near-peer adversaries, and it could lose."

Our adversaries watched the Afghanistan debacle unfold and concluded the Administration is weak based on decisions made in the White House situation room. Since then, China, Russia, Iran, North Korea, and global terrorists are rapidly expanding their capabilities and aggressiveness. These same adversaries are watching how DEI is being forced into our military as it divides service members instead of uniting them into cohesive teams, resulting in decreased warfighting readiness.

As president, Donald Trump took executive action to eliminate such harmful programs from the Defense Department and will do it again. We are at a historic crossroad where we must either choose to stand for our Constitution and its underlying traditional values which have made America the greatest nation on earth, or we continue down the path the current administration's top leadership is taking into the abyss of socialism and authoritarian cultural Marxism. The choices in this election have never been more clear.

We urge our fellow Americans to join us in supporting the election of Donald J. Trump for president. Our future is at stake.

The growing list of over 200 retired U.S. generals and admirals endorsing Donald J. Trump for President are a part of Flag Officers 4 America, an all-volunteer group of retired military flag officers working to uphold the oath they took to support and defend the U.S. Constitution. www.flagofficers4america.com
