

## WHAT NEXT—THE WAY AHEAD

### Citizen's Action Plan for America

**Purpose:** To put Constitutional government back into the hands of “We the People.”

**How?** Citizen involvement at the local, state, and national levels with an emphasis on involvement within local grass roots organizations. Action points below at the state and federal levels.

**Education:** citizens/parents control schools; not boards, administrators, or unions

- remove critical race theory and 1619 project teaching; insist on fact-based teaching of climate change and our national history; remove all gender identity/neutral teaching
- elect those with traditional family based values to school boards
- attend and speak at school board, PTA, and other school meetings
- volunteer to assist teachers in class; attend classes; review the curriculum ; monitor pedagogy
- allow voluntary prayer in school
- get civics back into the classroom along with math and science; require valid academic standards

**Political:** get involved with local government

- elect those with traditional values as county commissioners, clerks, and serve on county committees
- elect those with traditional values to serve as mayors, city council members, and various committees at the town and city levels
- attend meetings at county, town, and city levels and speak out
- require the Pledge of Allegiance to open all county, town, and city meetings
- elections: volunteer to be a poll worker and/or watcher
- stay informed on legislative actions at the state and national level; phone, write letters, emails, etc., to elected officials—ensure they know how you want them to vote—hold them accountable
- present your concerns to your congressional and senate local district representatives
- elect those with conservative values to party precinct positions to represent your local interests at the state and federal level
- contribute to campaigns, money and/or volunteer work

**Law enforcement:**

- elect sheriffs and DAs who will constitutionally enforce the rule of law and will resist state and federal mandates infringing on Constitutional Rights of citizens
- fully support local law enforcement budgets; oppose defunding the police
- thank your law enforcement officials both verbally and in writing for their dedicated service

**Media:**

- write to local newspapers, radio, and TV stations with facts; correct media misinformation

**Organize:** citizens within church groups, among church groups, and outside church groups

- attend peaceful demonstrations on key issues like schools, open borders, election integrity, 1st and 2nd Amendment Rights, etc.
