# experience

### UX/UI Design Project with FirastWave  // 2023

I spearheaded the FirstWave project, creating a responsive website for first-generation immigrants. This user-centered platform offers essential services and legal guidance, fostering community and support for immigrants in the United States

### UX/UI Design Project with InnerBalance  // 2023

InnerBalance, created at the intersection of psychology and design, establishes a space for profound self-exploration. Guided by UX and UI principles, I orchestrated the development process, crafting intuitive interfaces and facilitating an engaging user journey.

### UX/UI Design Project with Clear Yard  // 2023

Led UX/UI design for Clear Yard, streamlining connections between users and yard service providers. Orchestrated design process from ideation to implementation, creating an intuitive interface and enhancing user experience.

### UX/UI Design Project with kheradvarz  // 2019 - 2022

Collaboratively led the Kheradvarz project, a psychology-centered website, through a four-year duration. Spearheaded a responsive platform offering comprehensive self-awareness courses, showcasing strong teamwork and dedication

### Designer and Sales Development Associate at Kar-O-Andishe Corporation (KOA), // 2007 - 2019

During my tenure at Kar-O-Andishe Corporation (KOA) in Tehran from 2007 to 2019, my role encompassed diverse responsibilities beyond sales, including photography, catalog design, and the creative aspects of website design. I actively participated in brainstorming and ideation sessions, contributing significantly to the design process. In addition to establishing strong client relationships and resolving technical issues, I also organized and curated design exhibitions in multiple cities, further showcasing my design expertise and emphasizing design-related contributions to the company's projects.
