

# FAS (Fear, Anxiety and Stress) Scale

## HIGH FAS

### LEVEL 5

Significant signs of FAS with aggression such as growling, lunging, barking, hissing, snarling, and/or snapping. Intolerant of procedures.

### LEVEL 4

Significant signs of FAS without aggression, such as immobility, fidgeting, escape behavior, dilated pupils, excessive panting (dog), increased respiratory rate, trembling, tense closed mouth, ears back, tail tucked or thrashing (cat). May or may not be accepting any types of reinforcers. Not interested in interacting with team members and may be showing active avoidance (moving away).

## MODERATE FAS

### LEVEL 3

Displays more than 2 moderate signs of FAS occurring more than 4 times in a minute. May refuse reinforcements for brief moments. Might take treats roughly at times. May also be hesitant to interact with team members but not actively avoiding team members.

### LEVEL 2

Displays 1 to 2 moderate signs of FAS, such as ears slightly back or to the side, tail down, furrowed brow, slow movements or overly attention seeking, and/or panting with a tighter mouth (dog), occurring 4 or less times a minute. Readily accepts reinforcement (treats, toys, and attention). Still soliciting social interactions with team members.

## LOW FAS

### LEVEL 1

Displays 1 or 2 subtle signs of FAS, such as lip licking, avoids eye contact, turns head away without moving away, lifts paw, or partially dilated pupils, and/or panting but commissures of lips are relaxed, occurring less than 4 times a minute. Interested in reinforcers (treats, play, attention) and chooses to interact with the team members.

### LEVEL 0

No signs of FAS. Pet displays relaxed body language and solicits social interactions with team members.

## STOP

### FAS LEVELS 4-5

Little to no interest in treats, toys, and/or attention  
Fight, Freeze, or Flight Response  
Sedation + Pharmaceutical  
Nutraceutical PVP

## CAUTION

### FAS LEVELS 2-3

Moderate interest/disinterest in treats, toys, and/or attention  
Fidgeting, difficulty settling  
Pharmaceutical/  
Nutraceutical PVP

## GO

### FAS LEVELS 0-1

Readily accepts treats, toys, and/or attention  
Relaxed or subtle signs of FAS  
Nutraceutical PVP
