Infrastructure Excellence: New Boys' Hostel

The construction of our new boys' hostel reached near completion this year, marking a significant milestone in our expansion efforts. This spacious facility will provide comfortable, safe living arrangements and enable us to accommodate more children who need our support.

The enhanced infrastructure ensures boys have a nurturing environment conducive to both study and personal growth.

Key Achievements in 2022–23

100% SSC Pass Rate

Upgraded Computer Lab

New desktop computers installed, ensuring all children gain essential technology skills regardless of their background.

New Gym Facilities

Fitness equipment installed for hostel and school students to encourage exercise and good health under supervision.

Technology Empowerment

Modern Computer Lab

This year's installation of new desktop computers transformed our computer lab into a modern learning hub. Students now enjoy improved access to technology and digital learning resources.

Even children from less privileged backgrounds are gaining exposure to the latest information technology, preparing them for tomorrow's digital workplace and closing the opportunity gap.

Active Fitness Training

Thanks to Stichting Navjeevan and Annelies' generous contribution, we established fully-equipped gym facilities in our organisation. Hostel residents use the equipment under the warden's supervision, learning proper techniques and understanding fitness fundamentals.

School children access the gym during sessions led by our Physical Education teacher. This initiative promotes lifelong health habits, builds confidence, and teaches discipline—qualities that extend far beyond physical fitness.
